

[PDF / Epub] ✓ Star Wars: Legacy of the Force 8 - Revelation ★ Karen Traviss – Soccerjerseys-wholesale.co

Posted on 09 February 2017 By Karen Traviss

It seems that as this series progresses along it keeps getting better and better Jacen finally reveals his true colors to the galaxy and Jaina fully embraces her destiny paving the way for the biggest showdown in Star Wars history since the Anakin Skywalker Obi Wan Kenobi showdown in Episode III But the most satisfying part of this addition to an incredible series is to finally see Ben Skywalker fully grow into his role as a Jedi He may possess a great deal of self doubt about his own abilities and moral compass, but I think he will be a great Jedi Knight one day, just like his father All in all, a great Star Wars novel. I think this storyline is so much better than the Disney Movies. During This Savage Civil War, All Efforts To End Jacen Solo S Tyranny Of The Galactic Alliance Have Failed Now With Jacen Approaching The Height Of His Dark Powers, No One Not Even The Solos And The Skywalkers Knows If Anything Can Stop The Sith Lord Before His Plan To Save The Galaxy Ends Up Destroying It Jacen Solo S Shadow Of Influence Has Threatened Many, Especially Those Closest To Him Jaina Solo Is Determined To Bring Her Brother In, But In Order To Track Him Down, She Must First Learn Unfamiliar Skills From A Man She Finds Ruthless, Repellent, And Dangerous Meanwhile, Ben Skywalker, Still Haunted By Suspicions That Jacen Killed His Mother, Mara, Decides He Must Know The Truth, Even If It Costs Him His Life And As Luke Skywalker Contemplates Once Unthinkable Strategies To Dethrone His Nephew, The Hour Of Reckoning For Those On Both Sides Draws Near The Galaxy Becomes A Battlefield Where All Must Face Their True

Getting Lucky

Nature And Darkest Secrets, And Live Or Die With The Consequences Goodbut a lot of filler. This is obviously the penultimate novel of the subseries, and it brings us to what we anticipate to be an exciting end. Jaina seeks out Boba Fett in order to have something in her own arsenal that can help her fight Jacen That is a fantastic clashing of subplots We get a LOT of information on Mandalorian battle close fighting tactics, and see exactly why how they can best Jedi It s fascinating, and Traviss is the perfect person to have written this. Amazingly, there is a heck of a lot on the Jacen arc than on the Mandos I love Shevu He is so awesome. And Niathal is not horrid She s manipulative and crafty, but she s not a bad being She understands humans as well as Ackbar did And she knows Jacen extremely well and knows just what to say to trigger or placate him. It humors me that Jacen is constantly questioned as to if he s so powerful, why can t he do X, Y, or Z Jacen manages to get Pellaeon and the Imperial Remnant on his side Seeing Tahiri and Pellaeon together makes me remember what eventually comes next. It s wonderful to see how immersed with the Force Mara is in order to communicate with Ben Talk about being redeemed Daala. I do find it odd that both Mirta and Pellaeon call Tahiri Jacen s villip. Personal Responser think that overall this was a very good read and that the author mixed it up from the nonstop action to sometimes a calmer state Also she did very well in making very unexpected moments and tense moments along with those. Plot The book starts off with Jacen wanting to attack Fondor which he does ,but before he does, he tries to enlist the help of the Imperial Remnant under Admiral Palleon Jacen sends Tahiri to enlist there help after that the Imperial Remnant decides to join the Galactic Alliance if it gets territories Then Admiral Niathal, Jacen, and Admiral Palleon attack Fondor There minelayers are destroyed on the spot and they arrive later Then they destroy the planetary shield ,but then, the Fondorian Fleet appears from hyperspace Niathal removes Jacen from command as the battle ensues when he tries and succeeds in destroying much of Fondor s largest city When it looks as if the GA might lose another Imperial Fleet arrives and destroys a lot of Fondor s and Jacen s Fleets Then Jacen went in a med evac ship to the Imperial Flagship Bloodfin to save his Sith Apprentice He succeeds in saving her and leaves

Fondor Recommendation I would recommend this to boys who like action, tense moments, and unexpected moments I would not recommend this to most girls they usually do not like fighting or violence in general. Meh. Some interesting twists here, but Travis's poor dialogue writing and her portrayal of Boba Fett as a daddy's boy is too distracting. Example: By the way Lieutenant, I have a new title, Caedus, Darth Caedus. I would like you to start calling me that now. WTF. Really. That's how someone reveals themselves to be a Sith Lord. Not to mention the philosophical conundrum of Jacen himself. Jacen adopted Sith tactics and teachings because he thinks they can help him bring peace to the galaxy. He doesn't view the act as evil, or his power as evil in and of itself. He thinks that Sith have had moral failings which lead to a universal label of evil, which he intends to avoid. By this book, Travis has him behaving in a way that acknowledges that he is evil and has turned him into a typically flat caricature of a typical Star Wars bad guy. I understand that the story is supposed to show his transformation and how one wrong decision or misperception can lead to a deep slide down a path that you don't intend. But I just don't feel it. This series has been very good. Despite its slow points, this book does not disappoint. It opens up about the Boba Fett story line and you can really see how he tries to make sense of a life lived for all the wrong reasons. The story opens up with Jaina Solo leaving to find Boba Fett to ask him to train her. She learns that there is more than one way to fight and that there are some secrets that are better left uncovered. In what seems like an unlikely turn of events, we see Jaina realizing that Mandalorians are not that different than her own family and not just mercenaries. While there is very little in the way of Luke, Han, or Leia in the story, we get to see Ben grow up considerably when we finally get the hard proof that Jacen was indeed the one that killed his mother. Later in the story, Jacen admits it out loud and is recorded. The story moves along at a good pace and the slow points are few and far between. While interesting, I think that the Mandalorian story line could almost have been stripped out and made into its own series. We don't have a word for hero. Being prepared to die for your family and friends, or what you hold dear, is a basic requirement for a Mando, so it's not worth a separate word. It's only cowards we had to find a special word for. It was just three

words But it was three too many for Boba Fett Karen Traviss has done it again She has never failed me yet when she writes about Mandalorians and precisely Boba Fett This book is rich with how the gears in Mandalorians beliefs culture works A must for all fans of the Fett. Okay here is all I have to say I love the journey that this series is taking the reader but I really wish that they made Darth Caedus to be of a bad ass Its like, for the past 3 volumes he s been getting his butt kicked by every member of the Star Wars universe Also, I don t understand how all of the people that hear that he is a dark lord are kinda like, oh okay It just seems like a little bit of an understatement of the severity of the issues that are surrounding the story Okay here is what I really mean the story simply feels like it has been going way too long and I kinda feel as though a lot of the major events have become trivialized does anyone remember that he kidnapped his daughter Or that he trashed the planet of the Wookies Or that he s a FRICKIN SITH Anyways thats all I ve got waiting patiently for the final book.
