3 19 16 My current interest is primarily the lunation cycle and this book has some great things to say about the progressed lunation process I read Part 1 The Lunation Cycle which ends at page 81 I also read Chapter 12 The Progressed Lunation Cycle which starts at page 303 until the end of the book at page 355 I may still read chapter 6 but I am going to leave the rest for another time Chapters 7, 8, 9, 10, 11 primarily talk about other cycles such as Saturn Moon and Jupiter Mercury.
