3.5 stars, bumped to 4 on GR system. Stumbled across these very early works by an author whose style in I d admired in recent work A couple of cute stories with some truly funny lines and situations But, as always when I read category length here even amplified by the fact there are two novellas within the category length book I long for subplot and development of backstory and secondary characters There is only so much even a skilled author can do within such a tight wordcount.
