Ang Lihim ng San Esteban ay isang chapter book kung saan ang target na mambabasa nito ay mga bata Ang kwento ay hinati sa maliliit na chapters dahil na rin mayroong maikling attention span ang mga bata. Nakakatuwa dahil second hand ko ito binili at may mga marka ito ng naunang may ari may linya ang ibang salita na tingin ko ay dito niya unang naencounter Mabilis lang ang phasing ng istorya dahil nga isa itong chapter book Nagustuhan ko din ito dahil hindi lang kakatakutan ang laman nito, nagbigay din ito ng idea kung ano ang buhay noong sinakop tayo ng mga hapon. Ang rating ko ay inilebel ko kung sinong target reader ng ganitong akda Para sa pangbatang babasahin na gusto ng katatakutan, ayos ito. It Is Jacobo S First Time To Spend Summer Vacation In San Esteban In Ilocos, And He Feels A Mix Of Excitement And Nervousness As He Travels To His Parents Hometown He Will Surely Discover Many Things About His Family From Lola Carmen But He Didn T Expect To Find Bigger Secrets In The Old Houses And Ghosts Of San Esteban Will These Prove To Be The Key To The Mystery Lola Carmen Keeps Trying To Hide rjkdnskwl I read this as it is a required reading for Grade 5 students It was a quick and easy read Filipino novel I actually had fun reading it The experience reminded me of reading a children s lit I wouldn t say it is bad It has merits on its own and the author is worth receiving some credit for the effort, the imagination, and the adroitness with the language. it so nice
