G. R. E. A. T. That is what that was. I liked that there was a door that only appears when you put water on it. I thought "Journey to the Volcano Palace(The Secrets of Droon, #2)" wasn't that good of a book because everything happened too fast, and I didn't really like the way it was written. "Journey to the Volcano Palace" is about Eric, Julie, and Neal, who are all best friends. In Eric's basement there's a secret passage to a land called Droon. He only visited it once, but he had a dream about it, so when Julie and Neal came over they decided to go back to Droon. They arrive and their friend Princess Keeah tells them that Lord Sparr stole a magic jewel from her, and it's located in the a secret place, which is in a volcano.

The main character is Eric, because it's told in his point of view, but Julie and Neal were in this book a lot. Eric, Julie, and Neal all decide to help their friend Princess Keeah get her magic jewel back.

"Journey to the Volcano Palace (The Secrets of Droon, #2)" is located in Droon, which is located in Eric's basement . The time is during the day in summer.

The theme of this book was team work. Eric, Julie, and Neal all showed that by working together with each other and Princess Keeah to get the jewel back from Lord Sparr.

I would recommend this book to both boys and girls in third

grade because it's easy to read, and it's short. I was right to be leery of starting a series with over 40 books! For now not only am I addicted to these books but my children are also. I am reading ahead of them and reading them a few chapters each night before bed. They love the story so far, and I am thoroughly enjoying it also. To be honest I have yet to read anything by Tony Abbott that disappointed. And going back and reading some of his earlier works has been a blast both for me and for the kids.

Droon is an interesting world to visit. For when we go there always seems to be a task for Neal, Julie and Eric to complete. And this time is no different. This time they join Princess Keeah, the wizard Galen Longbeard, and we meet new creatures the lumpies and go on an adventure. In the first adventure in Droon the Eye of Dawn a crystal that can control nature was lost to the evil Sparr. In this story our team of adventures head to his secret hideout inside a volcano to try and retrieve it. We also find out that not all things are as they appear, and some who work for Sparr might even be forced to do so. Can the team get into the volcano, can they find the Eye of Dawn, can they get back out again. Come read the story and find out.

Droon is becoming a fun place to visit time and time again. And this story has a bit of everything, a magic doorway, strange creatures, adventure, friendship, the desert, a secret lair and a hook at the end to bring you back again! As mentioned I am enjoying reading the stories, and my kids are also, and hopefully in a few years the younger kids will be able to reread these books to me. But for now Droon is a great part of family reading time.

The only real drawback is it was only after starting the series that I discovered that only the first 10 books are available electronically at the moment. I can only hope the rest become available quickly, especially at the pace we are reading them. This was the 17th book by Tony Abbott I have read, and a number of those I have read twice. His stories always entertain, and now my kids are at an age where I am starting to share his great book with them. Tony has over 100 books

Read the review on my blog [Book Reviews and More](#) and reviews of other books by Tony Abbott. As well as an author profile and interview with Tony Abbott. I read the book "Journey to the Volcano Palace". It was written by Tony Abbott. It's about three kids. Their names are Neal, Julie, and Eric, and they visit a magical land that is hidden under the steps in their basement, called Droon. The book starts off with all three kids having weird dreams about things that take place in Droon. They decide to go and see what's going on. They arrive in a desert and princess Keeah is waiting for them. She tells them how the Eye of Dawn was stolen by the evil wizard Sparr. They journey out to find his hidden palace, but no one knows exactly where it is. They find his hidden palace and get attacked by two fire monsters and narrowly escape. Once in his palace they learn of Sparr's secret and that Keeah's mother, who is believed to be dead, is still alive. Sparr then finds them and they all get split up in his volcano. Eric ends up by himself and finds the eye. He steals it, and it goes out of control blasting everything. He ends up blasting a hole in the wall, and they escape through it. They then fly out of Kano on a magic carpet and live happily ever after.

The main characters are Julie, Eric, and Neal. Eric wears glasses, has brown hair, and is also the leader of the group. Neal is the funny jokester part of the trio, and Julie is a gentle girl who can lose her temper easily. They are about 10 years old and they are three kids that love to have fun, get into trouble, and go on adventures.

The main portion of the book takes place in Droon and Kano. Droon is a magical world that the kids can get to by closing the door that leads under the steps into their basement, and Kano is Lord Sparr's secret hide out that no one can find. The time of the book is modern time.

I thought "Journey to Volcano Palace" was a very good book. It was full of action and adventure. I think any youngster would love to read this book and because it's not a hard read they

can. At the end of the day I would give this book three out of five stars.

This magical story is about two kids who find themselves in the enchanted world of Droon. The land is a fantasy world with talking pillows and magical trees. The only problem with Droon is that an evil ruler sets out to destroy it. They find themselves on an adventure to get into the underworld to stop the evil ruler only to find hidden secrets.. This is a great read for anyone who loves a fictional story line. I liked "Journey to the Volcano Palace" by Tony Abbott because the events in the story are creative. Eric, Julie, and Neal all dream about the same dream. They dream they're in Droon inside evil Lord Sparr's secret palace. The secret palace is inside a volcano! The three kids must recover Princess Keeah's magic jewel stolen by Lord Sparr.

Eric, Julie, and Neal are all kids that have the same dream. Their dreams come to life within their imagination. They meet Princess Keeah, who thinks she can see into the future. The kids also meet evil Lord Sparr, who tries to ruin everyone's day.

The time takes place in the kids' dreams. Time does not pass by outside their dreams, so when they return home it is the same time as when they left. The story take place in Droon (in their dreams). This story is told in third person.

The theme is imagination. Eric, Julie, and Neal are able to access to another world known in their dreams by using their imagination. For them, anything is possible if they use their imagination.

I would recommend this book to young readers because it's an easy read. I enjoyed the creativity throughout this book. This book series is just right for the age range of 8 to 10. I feel that my kids would love it but for me there could be so much more to this. I like reading them though. I think I need to do that in order to get. better feel for it. My 5year old son wanted to give this book one hundred stars! I also thought it was wellwritten and engaging for a young audience. We are looking forward to reading the rest of the series. | [Reader Fox Blog](#) |

I'm weirdly having a blast rereading books from my childhood lately, and this week it was Tony Abbott's *Journey to the Volcano Palace*, the second in his *The Secrets of Droon* series. It's been an incredibly long time since I read these books and returning to them now has been an interesting experience. I'll be honest, I didn't remember a single thing about them other than that a princess was involved and there was some evil guy who did...evil things...before I reread these books. While I can say with certainty that there are certain points I do recall, these books didn't quite stick with me as I grew up.

That's probably because they're incredibly underdeveloped. Whereas I was able to fall in love with novels like *Eragon* and *The Hunger Games*, books like this one were quick reads I eventually forgot nearly everything about. And I don't really consider this a bad thing per se. It's really good for kids to have engaging and fast reads to enjoy when they're young. But I also won't be singing many praises for these books either. Their merit lies solely in their ability to increase readership. I will always appreciate these books for the fact that they're easy to read, enjoyable adventure stories that will likely foster a love of reading in young children. They are especially useful, I think, in that they provide struggling readers with an opportunity to learn to love reading. Since my expertise as an adult is in teaching struggling readers, I'm genuinely thrilled to realize how useful these books can be in that regard.

I nearly bought the first book for one of my students. That said, the development and plot still suck. I'll give Abbot this, he doesn't have a lot of time to set up the characters, their personalities, and give them real or genuine development. The book is less than a hundred pages long. There likely wouldn't be much of a plot at all if he did that. But again, this book does feel like one of those 30minute children's shows that focuses on all the action and nothing else.

Eric still has no personality. Julie is...smart, I guess? Neal is the single character who actually has a personality, but it's just so that he can be the comic relief. Weirdly enough, these characters keep reminding me of undeveloped versions of Harry, Hermione, and Ron. And Keeah's just a strong princess,

but ultimately she has less personality in this one than she did in the first novel.

The plot is very much a continuation off the first book, or episode, and really just involves figuring out how to get the magical stone that was stolen back from the evil villain.

And that's it.

There's really not a whole lot of substance to this book at all. In many ways, it feels as though the purpose of book two was to introduce readers to a few more things about the worldnamely the pillow creatures, Sparr's secret, and this weird mermaid hidden away in his palaceand the plot was just thrown in because, well, books need a plot.

And since the remaining problem from book one is resolved, it's also time to introduce a new problem to solve in book three.

The magic in this story just exists and does weird things, which frankly is a massive copout on the author's part to prevent him from having to do any actual writing work. And then, in a similar vein to the first novel, Eric and his friends return to his worldand the for some reason still messy basementwith the promise that the magic will tell them when to return once again. For some reason, the stairs that will bring them home appear right where Keeah needs to go, so everything gets tied up quite nicely.

So, not great. But I still appreciate it.
