

✿ [EPUB] ✿ Pen Point (Love Invested, #1) By Angel Bales ➤ – Soccerjerseys-wholesale.co

Posted on 18 January 2018 By Angel Bales

A gifted copy was provided by the author for an honest review. This story begins with Tambria starting a new job in a new town with her bestie, Cammie, after recently getting divorced. The relationship between Tambria and Cammie is hilarious. Cammie is a woman I would love to meet. Some of the things she said had me laughing out loud. They start a new project at work and end up meeting Evan, a sexy tattooed CEO. Evan is definitely swoon worthy. He is so sweet to Tambria, and the way he always calls her beautiful made me smile. There are some hot scenes in this book, and Evan has no problem taking what he wants. If you're looking for a sweet and sexy read, this book is it. Will be on the lookout for books by this debut author Tambria and Cammie. Remember those names. These chicks are crazy. You will fall in love with their relationship. I got the chance to read this book and what I loved right from the start is that the girls aren't in HS or College and are NOT in their 20s. Loved that they are educated, professional women that many of us can relate to. Tambria, is in a new city she has moved close to her BFF, Cammie. She is working for Cammie's dad firm. These two ladies are going to make up for time apart. They work together and now are going to party together. First Friday in town they go out to one of Denver's hot clubs, yes, that's right. 30 somethings can have fun too. One of Cammie's old flames is the manager of the club and he is MORE than willing to reignite that flame. But, Cammie of course claims she's not interested and is there for her friend to meet a hot piece of man meat. Tambria, meets a hot piece of man meat not at the club but through work. Enter hotter than hell and sexy ass man Mr

Evan Maxfield This man is HOT So hot, Tambria can't stop thinking about him He is the biggest client the firm has ever signed She's faced with a dilemma Does she want to keep the job she has after leaving her husband Does she jeopardize the opportunity her friend's family has given her and follow her feelings The story is good Author kept me engaged and I couldn't stop reading They craziness these two besties get into is hilarious I laughed at them and couldn't wait to see what Cammie had to say. I can't wait to see what else Angel Bales gives us in the future. Where do I start with this book It was absolutely hysterical I read on the subway to and from work was given the ugly glares from all the laughing I was doing at 6am The book follows the story of Tambria, Bree as everyone calls her, and Evan There is also Bree's best friend and hilarious sidekick, Cammie Those two women together will make you laugh snort They absolutely remind me of the antics of me and my best friend. We first meet Bree as she is waking up for her first day of work in a new town This is after she caught her husband cheating on her and promptly leaves him She is getting into the swing of things in her new life when she is given the chance for a huge account at work Enter Evan, billionaire hottie At their first meeting, they are both dumbstruck by the other. As they continue to work together, their attraction grows Bree is weary because of her previous situation and doesn't feel like she can trust her instincts when it comes to Evan She also doesn't want to risk anything happening to the firm, or its future if things don't work out it is Cammie's legacy after all After much prodding on Evan's behalf, they have a date night and then day and then night together They decide to take things one day at a time. There were times I wanted to jump into my kindle and shake some sense into both of them Evan was being hot and cold with Bree which only confused her and made her firm in her conviction to not get too close However, Bree finally gives into her feelings and allows the relationship to move forward This makes everyone around both parties very relieved. Overall, this was a light and easy read The characters were believable and easy to relate to I enjoyed that they weren't 20 years old like many are in current romance novels This was the first book I've read from Angel and it certainly won't be the last. Pen Point is the first book I have read by Angel Bales and I enjoyed it Yes it is about a young

I, Claudius

billionaire looking for love, however for a twist, this guy is actually nice and I loved that aspect of him. Tambria I tripped over this name a bit is newly divorced, living in a new town and starting a new job She is going to work with her best friend Cammie at her father s financial company Bree isn t looking for love by any means, just getting back out there is enough for her right now Evan Maxwell is our resident hot, rich guy He has been all business for so long, he doesn t have time for a real relationship at the moment Evan is looking for a new financial firm and takes a meeting with the company Bree works for Bree is in attendance at the meeting as well and as they meet the spark is instant. While I am not a fan of insta love and I will admit that the way Evan acted creeped me out every so often, I was glad to see a sensitive leading man for a change Evan felt something for Bree the moment he met her and made it very clear, very quickly They continued to work together while trying to decide if playing together is going to work out for them The book is sexy and maybe a bit crass in some parts I realize there are only so many words for lady parts, however the C word isn t one that screams sexy to me, neither does hole That was a bit of a turn off as well as a few other things Evan would say to Bree in the moment That aside, I like the way the relationship blossomed with Evan and Bree, they took time to get to know each other better and figure things out between them. The book was well written and wrapped up nicely. I was lucky and recieved this book early It s been a while since a book has made me laugh out loud The relationships Tambria has with her best friend Cammie and Evan are hysterical Tambria has just gotten a divorce after catching her husband in a compromising position and she leaves her life behind moving across the country to start fresh She meets Evan and the sparks fly instantly She resists at first because her firm is working for Evan and she doesn t want to ruin the opportunity for her firm I just wanted to shake her and say suck it and take the chance Usually it s the male dragging his feet but in this case is Tambria This was a great first book by Angle Bales I laughed through most of the book Evan is hot and sweet He s book boyfriend material Looking forward to future reads from Bales and hope to see of Tambria, Evan and Cammie. Ok so she found her husband in his work trailer with his forman, his male forman Tambria just wants to get on with her life and

when her best friend suggests she come to work at her fathers firm she jumps at the opportunity to start over in a new city Just one week into her new job and the unthinkable happens, their smoking hot billionaire client can t seem to take his eyes off her, the sparks between them are enough to start a fire But he s a client and she s not looking for anyone, even if he can melt your panties off with one look. Tambria had her confidence shattered by a husband who should have never married her, but she didn t let that define her and take her over She s strong enough to move past it and with her best friend at her side she can do anything. Evan is such a sweetie, even though he never wanted a relationship he accepts what he feels for Bree and isn t afraid to say whats on his mind Watching him woo her and show her just how good they could be you see just how right they are for each other. There are mmmoments when you re on the edge of your seat waiting for Tambria to realize just what they have together, and there are times when you have to bring out the fan to cool off from their heat inducing scenes But my favorite thing about this story was the fun times between all the characters Prostitute Ariel, just saying My only complaint was I wished there was background and depth to the story This was an entertaining afternoon read filled with lots of laughs and steamy scenes. This book was a short sexy and fun read I laughed quite a bit in this book and being such a short book I read it pretty quick had a lot of hot sex scenes and it begins with Bree finding out her husband is having an affair with a male co worker oh my so yes, she divorces him and moves on she get s in touch with her best friend who is a character and incredibly funny Cammie, and moves to work for Cammie s fathers firm Cammie and Bree work on a project that involves another company and the owner billionaire Evan Maxfeild falls for Bree immediately even though he has not had a serious relationship in several years and Bree just recently got out of a marriage and dealing with a divorce and feels damaged but chemistry can NOT be denied it gets a little HOT in the board room is all I can say fun read Angel Bales is a fantastic writer I loved the connection between Tambria female lead and her best friend Cammie It was positive and inspiring watching how Cammie helps Bree through her divorce with her own kind of humor. Bree is recently divorced, picking up the pieces of her life with the help of her best friend from college, Cammie. Evan

Maxfeild is an incredibly handsome, sexy billionaire that Cammie and Bree end up having to work along side with. Evan and Bree's connection is visible from the start and it frightens Bree. I enjoyed the humor, the witty banter between women. I liked that it showed that women could support one another without petty drama and jealousy. Really enjoyed Pen Point, can't wait to read Angel Bales' future books. First off, this is a series. Just thought I put that out there for those who are not a fan of such novels. Considering the way the novel ended, I'm thinking the story is to continue with book 2. Story to be honest I didn't think there was much of a story as it's your typical one girl meets uber sexy, rich guy. Girl totally enamored with girl. Girl takes a chance with guy even though she's afraid she might be hurt because of past relationships, blah, blah, blah. Of course, said girl has a BFF that's over the top outrageous. So what's the book about? The hero/heroine having never-ending, mind-blowing, multi-orgasmic sex that's off the charts scorching hot. Seriously, if you're in the mood for a simple read that's chalk full of sex, sex, and sex, then I suggest giving Pen Point a read. The author definitely excels giving her readers a novel full of sex that's never dull. Be warned. Not only will you end up hot and bothered, you'll hope and dream of all the possible orgasms you could have with just such a hero. In the end, only three stars as I thought Pen Point lacked an in-depth story with well-developed characters instead filled with a plethora of well-written sexcapades.

Cheers
Tambria is a beautiful, intelligent, sexy woman. In her 30s, she's responsible, has a degree in accounting, and avoids drama at all costs. So how does she deal when she finds her husband having playtime with a male co-worker? A cross-country move seems like the perfect plan. Roxtown, Colorado has the perfect solution. Her best friend from college is there with an immediate job offer to join the family firm. Things just seem to be falling into place when Tambria is given an amazing opportunity to work with one of the wealthiest CEOs in the country. Not only is he wealthy, but he can melt panties right off your ass with just his presence. Tambria refuses to join the flocks of women that fall all over themselves to catch Evan's attention. Yes, he can be distracting, especially when he looks at her like he's ready to throw her up against the nearest wall and do things to her body that she's

Never Experienced Before She S Determined To Stay Focused On Her Career And Adjusting To Being A Single Woman Again Can She Handle The Job And Keep Her Heart And Underwear In Tact
