Brainy, tall and curvaceous Alexandra Waite dreams of making Daniel Upton her sexual interest The only problem for Alex is that she s running her wealthy grandfather s company and the boss In her effort to separate personal and professional life, Alex can only fill her lonely nights with lustful thoughts of Daniel Until, Alex s grandfather baits her into using female wiles in manipulating Daniel into changing project reports that could increase company profits without regard to the Alaskan environment Outraged at her grandfather s blatant demand Alex has no intention of making a decision that would damage the environment and Daniel s integrity Angry and lonely, this pushes her to finally grab what she wants Alex brazenly propositions Daniel and his crew to a night of sex Daniel can t believe Alexandra just walked into the town s pizza parlor with an illicit invitation for no strings attached sex With Alex being the boss he could never act on the attraction between them But Daniel has other ideas of claiming Alex for himself What happens next had me turning up my fan to full blast Wow, just wow The heat poured off the pages and I was left wanting I couldn t tap my kindle fast enough to turn the pages Ms Donahue did a fantastic job on this story The number of love scenes were hot, imaginative and perfect for the story without over doing it I loved that Daniel was a strong Alpha male lead and recognized Alex s need for submission in the bedroom, opposite from her position of power at work The theme of domination and submission is lightly threaded in love scenes and did not take away from the story The ending was sigh worthy cheered for Alex when she gave her grandfather an ultimatum, and didn t give up until she found Daniel again It was a wonderfully romantic ending that had me tearing up The words were perfect And, thank you for giving the story an epilogue For me it made this sexy story into a wonderfully satisfying love story

Awesome Story The characters are funny and exciting

which apparently is hard to be while in the wilds of Alaska and maintain a boss like image Especially if said boss is female and in lust with the head of her all male crew While the novel is loaded with erotic sex in true Tina Donahue fashion the characters and their lives will steal your heart and have you rooting for them to find the happiness they didn't seem to believe existed for them Alexandria and Daniel share a wild ride on the path to finding what they truly want out of life both at work and in the privacy of their cabin This is a must read with two thumbs up

This was an amazing book With so much going on, with the characters and the emotions Of course it had awesome hot sex scenes, things that made you laugh, and things you felt connected with Alexandra and Daniel bring the hotness level up But there are also other factors that every human feels, like insecure and afraid of your feelings Tina brought all this up and it flowed perfectly This is one of the best erotic books I've read in a while If you are new to erotic books I think this is perfect to start with A must read for everyone Tina did an incredible job with this book

This is a really good read I love that there is a female boss in charge of a male crew and the funny and exciting things that happened there was a lot of hot sex but it didnt take away from the story.
