For Club Life As The President Of The Hell S Storm MC I Protect My Brothers At All Costs, And They Do The Same For Me After A Rival Club Killed What Was Mine, I Vowed To Live In As Many Chicks As Possible Never Tasting The Same One Twice But, All It Takes Is That One Look To Completely Bring A Man, Even Me, To My Knees Two People Brought Up On Different Sides Of The Tracks Two Different Paths In Life Both Will Be Tested, Taken To The Very Edge Of Darkness That Threatens To Consume Them Both Will They Be Able To Withstand The Heat Of Hell Or Will They Fight To Death And Lose Themselves I was pleasantly surprised by this book I know that sounds bad but it s really not When I start reading a new author of MC books my expectations are not for a 5 star read My expectations are that I m hopefully going to like it Don t get me wrong, I love MC books but finding another MC author that I actually want to read seems to be far and few between So when reading this book I was doing a happy dance.This book was almost a 4.5 for me Raven is a strong minded woman who doesn t put up with much and Mace is the president of the MC Jazz, Raven s friend talks her into going to THE club and it happens to be Mace s When Mace sees her and the two collide you can feel the chemistry between the two and feel the anticipation But when Mace finds out who she is, he tries to push her away but that obviously doesn t work Mace is a good man that s had a shitty life Yes, his mc does some illegal stuff but they also do a lot of good Then you have the rival mc looking for a way to get back at Mace and his club They ll do anything to get even, how far will they go How much devastation is going to be brought on to the club There were times I felt like telling Mace don t let her get away with that, bealpha I liked the writing style and the story pulled me in The ending about killed me UGH I am ready for the next book I can t wait for Jazz s and Creep s story. Obsessed by books copy given in exchange for an honest review Just because we choose to live miles outside the box, doesn t make us any less deserving of finding that person we live so fiercely we would lay our lives down for them Opening with a brutal retaliation murder, moving quickly onto a sassy female lead and a sex club this book had me hooked from the first four percent After the death of his Oi Lady at the hands of a rival club Mace is a changed man, his dad the former Prez of the Hell s Storm MC

thumb screws Fantastic This was my first read of either author so I m really pleased to have found two amazingly talented writers to add to my TBR A four and a half star read I wanted the Kate scene in full technicolor detail Received a copy in exchange for an honest review Without words, his hands grope my ss, supporting my weight as he stands My legs wrap around his waist and my arms around his neck, the hair at the nape of his neck tickling the tips of my fingers He sets me down on the table and wraps his hands behind my knees, pulling me forward until my ss is at the edge 5 super sexy stars Wow, I mean just wow This book was intense and sexy all at the same time What a wonderful read Raven Two people That s how it usually starts right I grew up believing one thing, only for one day to completely mess up everything I ve ever been taught Was I a good girl No, not by any means But, the world I m about to be thrown into is unlike anything I ve ever known Mace Multiple people I live for club life As the President of the Hell s Storm MC I protect my brothers at all costs, and they do the same for me After a rival club killed what was mine, I vowed to live in as many chicks as possible Never tasting the same one twice But, all it takes is that one look to completely bring a man, even me, to my knees Two people Brought up on different sides of the tracks Two different paths in life Both will be tested, taken to the very edge of darkness that threatens to consume them both Will they be able to withstand the heat of hell Or will they fight to death and lose themselves Mace is the president of his MC club, he s taken over for his father and he s vowed to make it a better club He s stop at nothing to protect his club and everyone in it Raven is a mechanic at her father s auto shop She meets Mace after a night out with her friend Once he sees her, he is instantly hooked, but when Raven finds out who he is, she s unsure if she wants to pursue him But when another man from a rival MC club shows his interest in Raven, Mace steps in This book was hot I loved it and I was hooked Received a copy in exchange for an honest review Read and reviewed by Melissa for Alpha Book Club arc received for honest review A story of 2 worlds colliding. A passion for cars. A passion for bikes. A passion for family. A passion for protection. A passion for each other. Raven is young works at her dad s mechanical shop she loves cars, she loves bikes as she says she would have a hard on if she was a guy

She hasn't had the best childhood having her mother taken from her at an early age only having her dad, Luke and Jazz to lean on to support her, she works hard and loves her job but would rather stick her head under a bonnet than go out drinking with her friend, until 1 night she meets him. His hot. His dangerous. He's the president of the MC. He sees her, it's his angle. He's never wanted anyone since his old lady was taken away from him 5 years ago. Gunner AKA Mace also hasn't had the best childhood his mum left him when he was 5 years old to be raised by his dad who at the time was president of the MC and the club. His dad also worked out and left him to protect the club and take over. He wants her. She's his. She doesn't want to be. Is the attraction too much? Can he protect her? They fall hard for each other but is it enough to keep them together or is his life too dangerous and only get her killed. There are so many twists and turns we felt sometimes we were forgetting to breathe and holding our breath at the anticipation of what was coming on the next page. Hell's Flower gripped us from the very first page we were so drawn in that we simply could not put the book down. We absolutely loved every minute of the book. We loved the way Mace loved Raven so fiercely and protected her with his life and would never let anything happen to her. We loved the way Raven brought out a different side to Mace the beautiful gentle soul he has. Thank you ladies for an amazing read we can't wait to read the next installment and see where everyone goes. Some books are good but this book is absolutely freaking amazing. I am still at a bit of a loss for words, as the journey my emotions have been on with this book are quite frankly epic. Just when you think the story is going to go one way these two wonderful authors make it turn in quite a different way. This is brilliant never once could I guess what was happening or going to happen. This book has a wonderful love story, but it isn't really your hearts and flowers kind of love but gutsy, gritty but above all real and suitable for the characters. Mace is certainly a strong alpha male who takes his role as president of his MC club very seriously. This means protecting what and who is his. Raven is a strong alpha female who likes her independence but she also likes Mace. Can their two very different worlds blend together? What helps to add to the quality of this story is the involvement of all the friends in particular Jazz and Creeper. They add the humour and also

lead us to the next book which I am now absolutely dying for I happily award this book 5 stars Rosie. I was given a free ARC of this book by the author to review. I love this book As soon as I finished it I am dying for the next book I need to know what else happens. The book is well written, smooth flowing and very easy to read I fell in love with the characters right away Mace took a while to grow on me, but he eventually got there Raven is a mechanic at her dad's garage She loves nothing than bikes and beautiful cars She works with her best friend Jazz Even though Raven is in her early twenties, she lives a fairly boring life with a non-existent love life Mace is the president of a motorcycle club He took over after his father stepped down He is always dealing with one thing or another After what happened with Trina, he doesn't think he'll ever find love again. If you like MC books, you definitely need to read this Please hurry and get here book 2. Review for I Dream of Books I'm going to throw this out there first, this book was a DNF for me I really tried several times to finish I just couldn't connect. When I seen MC book and the blurb, I was excited to read this But after that, the book fell flat for me Give 100 people the same book and you'll have a 100 different responses These are only my opinion of the book. We're supposed to believe the main MC character Gunner Mase is this hard core, president of his biker club. He literally falls in love at first sight were not told to where I read to if it's because she looks like it's his dead ex, or Raven herself and uses the pet name Angle then any rough, and tough biker should in a lifetime All we are kept being told is he's this bad a biker, but it's never shown All his inner monologue states time and time again is how his Angel this and Angel that The chance to show how mean and tough he should be, he trashes a business then sends his men to clean it up Then we have Raven the love interest She's supposed to be the macho chick, with bigger genitals than most men Or so she thinks to take on a biker gang on her own Of course every thing Mase tells her to do, she has to do the opposite or argue it out If just got annoying the arguing over anything for the sake of it Let's not forget every chin jerk, hip thrust, and finger pointing to the chest that has to go along with it. The only time none of the above happened is if she was drooling over her car, his bike or him Every one of Raven's chapters seemed to keep reminding us

how hot he is, or hot drool worthy her baby car is. The characters had very little growth and seemed immature. They are in their 20s, but the mentality isn't consistently carried through to the characters. There was also quite a few editing issues I had to stop quite a few times and re-read to figure out what was being said. Of course this was an ARC, so the editing updates may have been fixed. All the above things may have changed in the last half the book, but I quit at 60%. As to that point, there were a lot of clichés, and just average characters. These all are just my opinions. Every one is different. If you choose to read this book, I hope you enjoy it. I was really looking forward to reading this book after reading a previous book by SL Schaefer. I was expecting a dark read but the author warned me it was not the case so I went in blind with an open mind not realising it was a MC read. And I have to say sadly it left me a little flat. Raven is a girl doing her dream job as a mechanic tinkering with cars all day at her father's garage and is delivered as a spunky tough character. On a night out she encounters Mace and her life is suddenly doing an about turn as everything she thought she had planned is thrown up in the air. Mace is the president of Hell's Storm MC and is trying to set the club on a better path than his father before him had. We see in the epilogue how the club has impacted his life and left him detached and determined to avoid relationships. Until he meets Raven and his instinct to protect both the club and her collide. So far it all sounds good but for me the characters just lost their spunk and turned into sappy lovebirds in a plot that was riddled with holes that I struggled to look past. The story was too cliché and didn't stand out amongst all the other MC books out there and I honestly have read only a select few. There was a lot of characteristics of both the lead characters that by the end of the book were grating on the nerves a little. In addition there was a lot of typos in the copy I received for review. I'm gutted to be so disappointed in this book and really sorry to not be able to be positive about the story but it just wasn't to standard for me.
