3.5 stars I m like the creeper magnet GenGen puts the gen in gentle, and she s tired of it She wants to be tough and have self confidence to deal with the unwelcome men in her life like the cheating ex boyfriend and the aggressively grabby guy in management And then there s Lewis the gorgeous guy with the supposed non girlfriend He s everything she knows she should avoid, because with him, there d be no way she could protect her heart Everyone thinks they can trample me That I m weak and vulnerable I m not GenI loved this book This is the second in the Blue series, and it pairs really nicely with the first book if you ve read it If you haven t, there are plenty of spoilers since the stories are happening concurrently so you might want to read the first book before picking up this one Although the books happen concurrently, the first book doesn t spoil this one it just makes you want to read this one Anyway, on to Gen, one of my new favorite heroines She s such a sweetie, and it s tough to see how this lovely woman has been shaped by unwanted advances from sleazy men The girl is gorgeous and tries to downplay it, because men see her and want one thing which she s not interested in until she meets equally gorgeous Lewis Watching her grow in the book and gain self confidence was wonderful She went through some tough hazing with her co workers at the casino, which ended up being nothing compared to the horrible scenes where she realized how unsafe her work is if you re a beautiful young woman She had some heart breaking moments, and I couldn t help cheering for her as she found inner strength to fight for herself.It s easy to see why Lewis falls for her, although there was a bit and I

actually mean a lot of instant burning attraction at first sight and second and third At first, I didn't like Lewis, because I thought he had a girlfriend and was being a jerk for hitting on Gen which is what we're led to believe in the first book But, it turns out Lewis and his non-girlfriend, Mira, have a complicated relationship that made me want to love him, too Although, I did want to kick him at times when it came to how his handling of Mira almost lost him one of my new fave gals As for the plot, I liked the mystery of her father and the suspicious way of how her mother could afford so many things I LOVED how Gen entered and trained with Lewis to compete in an extreme torture race to get some bravery and tough chick mojo flowing The plot line with sexual harassment in an Old Boys Club setting was really well done and respectful, and I could feel the frustration and fear that Gen felt I loved the writing style and Gen's character voice she's so vulnerable but funny and frustrating, and we're right there in her thought process, experiencing right along with her The romance is high heat with the insta lust attraction although Gen does fight it There's no cliff hanger with Gen and Lewis, but we do have a set up for the next book with Mira and Tyler, which I can't see myself wanting to read I wasn't a fan of their characters but I loved the leads in this and the first book This book is going on my favorites shelf Overall, this is a 5 out of 5 for me Originally posted on my blog I received a review copy in exchange for an honest and unbiased review. If you have read Deep Blue, this is basically Gen's side of the story with what has captured her focus, Lewis This read will follow all the major events that happened in Callie's and Gen's It definitely seemed repetitive since I read Deep Blue however knowing both girls had this going on at the same time makes sense that it would be brought up Gen and Lewis literally had a love lust at first sight attraction When they felt or saw one another near, they felt the magnetic pull Gen pushed her feelings or tried for Lewis aside because of the type of relationship she saw him have with Mira The evil scumbag boss, Drake, forces himself on Gen and she tells herself that this is the last time she lets anyone think she is weak To toughen her up and face her fears, she enters the mudder contest Gen needs to train and gets saddled up with Lewis Being close to him gets them both having to deal with their feelings and other relationships This is my honest opinion

Blue Crush is the second book in Jules Barnard's Blue Series and can be read as a standalone. I really enjoyed this book and I liked the characters a lot. I hadn't read the first book in the series before reading this one, but I can't wait to go back and read it. This book takes place at the same time that the first book does, but it is about Genevieve and Lewis while the first book is about Cali and Jaeger. I was drawn in instantly with this story, and didn't put it down until I had finished. This one was a quick and enjoyable read, and I look forward to the reading in this series.

After finding out that her boyfriend betrayed her, Genevieve Tierney decides to spend the summer with her best friend Cali working at a casino to save money for grad school. She is determined to avoid men and relationships and quickly makes friends with another casino employee, Nessa. Nessa introduces her to her friends, and Gen is instantly drawn to Lewis. Lewis however had a complicated relationship with Mira, another friend of Nessa's. Gen decides to try to stay away from Lewis, but the connection between them is hard to fight. When Gen decides to sign up for the Alpine Mudder Competition, she ends up with Lewis to help her train. He was a finalist in the competition a year before and knows how to help her prepare. As they train together, they find it impossible to stay away from each other, and soon Lewis and Gen give in to their passion. Lewis might not be with Mira, but he does tend to put her before others and it becomes an issue for his relationships. Can Lewis find a way to make Gen his top priority and give their relationship a chance?

I really liked Lewis. He was strong and sexy, sweet and loyal. He was fiercely protective of Gen and Mira, and went out of his way to try to always look out for them. I thought that he let Mira get away with far too much, but it was nice to see him care so much about her as well as Gen. I think he definitely should have handled a few things differently, but he meant well and didn't always know what to do. Gen was strong and determined, but she was also insecure at times and had a tendency to run first and ask questions later. She jumped to conclusions at times, but she had been hurt and that was understandable. I did like that she was able to dedicate herself to doing something for her and that she took the competition seriously. She wanted to prove to herself that she could do it, and I admired her determination a lot. I also

really loved that she refused to settle for less than she deserved. Regardless of her feelings for Lewis, she wouldn't allow him to make someone else his priority over her and put their needs above her own. I thought that Lewis and Gen had amazing chemistry right off, and they were seriously hot together. But I also loved their playfulness and watching them fall for each other as they trained together and got to know each other. I have to say, I had an intense dislike for Mira right from the start. I didn't understand why Lewis put up with some of her crap, regardless of what she had been through. I understand that she had it tough, but that doesn't excuse her to act like a bitch and take over his life the way she did. I am curious to see what is between her and Tyler, Cali's brother, but I am a bit skeptical on how I am going to get behind her story. Hopefully she can turn her life around and redeem herself, but frankly she has a lot to make up for. She took advantage of Lewis's friendship and did a lot of things she shouldn't have. I will say that the ending of this story was also pretty abrupt and I felt like even though things were happy for now with Lewis and Gen, that their story felt unfinished to me. We are left with a cliffhanger, and that will get me to read the next book alone despite the fact that it is Mira's story. I would recommend this book to NA fans, especially if you have read the first book in the series. I look forward to reading from Jules Barnard in the future. ARC Provided by Inkslinger PR 2 2.5 stars. I was not convinced with Blue Crush, I just didn't get Gen's point of view. She came across as a strong individual even though she thought she is not. For that reason itself, I felt that book didn't connect to me or made me feel anything as compared to Tyler and Mira's story. Gen's convinced that her mom is mooching off her BF's or she is earning through life in not a right kind of way. She doesn't share this info with anyone even Cali whom she considers as her BFF. But, she shares most of her story or concerns of Lewis with whom she felt of a physical attraction rather than emotional in the beginning. The most annoying part of the book is where our girl says this line: "I don't know but I trust this guy, I just trust this guy won't hurt me." This pisses me off since there is no history between these two yet she trusts him coz they share a sizzling physical attraction. Not convinced at all. Gen's stance of being a priority in Lewis's life was really cool and I appreciated her strength in this

situation as she didn't let her heartache come in between her judgment I couldn't find much to the story and certain elements felt forced With respect to the characters, Lewis was an amazing guy and was completely swoon worthy whereas Gen was tall, beautiful with a good hold on her emotional capability Overall, it was an ok read I have read all three of her books and found this one the least interesting for all the reasons mentioned. What a great book Lewis he's mysterious and well at first doesn't talk much And Gen well that girl just can't help herself but look at all the yumminess that's Lewis, my gaze flickers to Lewis, his hair sticking up in the front, a light sheen on his chest from the sun and exertion His board shorts sit low on his hips, every smooth abdominal muscle visible, including the thick ones that disappear into his clothes The boy has no sleuth when it comes to Gen He takes a gulp of water and screws the cap back on, looking me over You have a sports bra on under that Where's he going with this My extra large t shirt covers me from neck to thighs, stopping just above the bottom of my boxy running shorts The sleeves bag out to my elbows Attractive Yeahhh, I say hesitantly Can you take off your shirt I love how protective oh Gen he was, his gaze turns heated With my body No With yours I don't want any guy seeing it, or having thoughts about it, or watching what we do together I want that to be private and between the two of us And I want to do it all, just so you know So when you're ready really ready tell me I could totally see how a naked Lewis would be a distraction while on the phone to your mother, Alphine Mudder You should come It's in a couple weeks I yawn Lewis slips out of bed and my thoughts congeal into a static hum His naked body His a..what we did last night I love how he can just take time off of work for Gen, he tosses the phone over his shoulder I gave myself the morning off He drags the sheet below my breasts and I run my hands over his shoulders, the muscles of his arms I can't wait to read the other books in this series. I received this book from the author in exchange for an honest review I thought that this was a good fun New Adult read It was exactly what I was expecting when I requested it from the author I really liked Gen, and I love seeing personal growth in characters and Gen had that in spades I love love loved when she put her foot down with Lewis I don't like heroines that are pushovers, and Gen certainly decided that

she wouldn't be that any. The other thing that really set this book apart for me, was that Gen didn't wait around hoping that Lewis would stop making Mira a priority. When she realized what was going on, and how important they were to each other, she didn't stick around. To me this is what sets this book apart from other New Adult novels, because most of the time they whine and moan about the love interest and then finally leave. This book was about Gen finding herself, and her inner strength and I thought that was great. I would give the book 3.5 stars. Thanks Netgalley for ARC. 3.65 the book was good there were some parts where I thought it was kinda slow but in the end good. Characters were just dancing around at the end but it all worked out. I didn't remember much from book 1 so I was kinda lost.
