This may sound harsh, but this was one of the worst stories I ve read in a long time, in ways than one Beside the fact it was very amateurishly written, I hope the author didn t pay whoever edited it Grammatical errors, poor choice of words, awkward phrases, repeated sentences, lack of character development, a plot that was all over the place If you get past all that, here s the kicker It ends in a cliffhanger It s crazy that an author would leave a reader without any type of closure I didn t see anywhere in the description that this might be part of a series, either.Doesn t matter, though, because I have no intention of reading this author ever again I would not recommend this book even if its free and you have absolutely nothing better to do.
