Loved it. Very good reunion story Anna first made her appearance in the previous book, That Night With the CEO, as Adam s younger sister She wants to be the CEO of the family business, and at the end of the last book, Adam had promised that the job would be hers as soon as he could make it happen Unfortunately, he seems to have forgotten that promise Increasingly frustrated, when she sees the chance to make a huge deal, she is determined to go for it The biggest problem is that it entails working with Jacob, her brother s former best friend and the man she had once loved. Jacob can t believe it when Anna comes to him with a business proposition For the last six years he has been working toward taking his revenge on Adam, and Anna is about to give him the perfect shot at it He doesn t expect the girl he had given up to have become a woman who makes him want to give it all up But one night in her arms has him trying to find a way to stop that runaway train before it ruins everything. I loved Anna She isn t afraid to go after what she wants, professionally or personally She knows that going to Jacob would be looked at as a betrayal by her brother, but she can t think of another way to get what she wants She also knows that she is going to have to keep tight control over her emotions, because she has never forgotten the way she felt about him. I loved the way that they reconnected so quickly, almost as if they had never been apart Their ride on Jacob s motorcycle had the heat that had been simmering between them burst into a full boil Though they agreed that their one night couldn t be repeated, that vow lasted only a few days before they couldn t stay away from

each other Over the next few weeks they spent as much time together as they could, with their relationship growing deeper each day Because of the bad blood between Jacob and Adam, he and Anna kept their relationship secret.All that secrecy begins to wear on Anna, and she finally tells Adam the truth, only to find out that Jacob is behind a group of investors trying to take over the business Because he had been trying to find a way to call off the takeover, he had never told Anna what was going on Heartbroken and feeling betrayed, Anna breaks off her relationship with Jacob, only to discover a short time later that she is pregnant with Jacob s baby.Anna s conscience, and best friend, won t let her keep that information from Jacob I loved Jacob s reaction and how he is determined to be a part of Anna and the baby s life The scene at the doctor s office, both with his protectiveness and how emotional they both got when they heard the baby s heartbeat, was really sweet I loved Jacob s determination to win Anna back He has realized that his feelings for Anna are far important than any kind of revenge, but is it too late He has continued his attempts to make things right, and eventually finds the information he needs to do so That information provides a very interesting twist to the story, Jacob s big moment brings everything to a satisfying end.As much as I liked Adam in the first book, in this one I spent most of my time feeling like Anna should hit him with a very hard blunt object He was really obnoxious to her and to almost everyone around him I was a bit frustrated that we never really got an explanation of what had caused the rift between Adam and Jacob I also hope that Aiden gets his own story, as his part in this one seemed too easily fixed. couple builds upon a genuine friendship to fall in love it makes the journey of an investment for the reader This captivating romance appeals on many levels, from the forbidden lovers angle to the strong, dynamic characters RT Book Reviews, 4 1 2 stars TOP PICK. Slick s review posted at Guilty Pleasures Book ReviewsI always love it when a couple who has some history reconnect as adults and in Pregnant by the Rival CEO author Karen Booth dishes up an engaging, complex and sexy story with a big twist of fate The minute I started this book I was hooked and it was simply impossible to put down. Anna Langford has one goal in mind and that is becoming CEO of Langtel, her family s telecom company that has been floundering since her father s death Her brother Adam was named CEO, but he has other things he wished to pursue, but getting the board of directors to appoint a woman is not easy, so Anna intends to broker a deal for a new piece of technology that will revolutionize that cell phone world Her only problem the man who can help her get that technology his her brother s ex best friend and the man she once had a huge crush on. This was an action packed story with the threat of corporate takeovers, a secret romance and a pretty big betrayal Anna Langford knows she must seek out Jacob Lin to secure the technology she wants but in doing so she also knows it will be hard to not acknowledge the incident that broke her young heart or the fact that she s never quite gotten over him It was interesting watching these two reconnect as adults and trying desperately to not give in to their attraction for one another Their history allowed them to connect quite easily and the sense of familiarity made it easy for them to move from friends to lovers With Jacob still at odds with Anna s brother, Adam and secrets that could tear them apart there was a sense of unease through a lot of this book which only made the intensity between Jacob and Anna that much stronger. I m a big proponent of honesty in a relationship so I had a bit of a problem with Jacob s reasoning for not cluing Anna in on his plans, but it did lead to a much needed confrontation and some good came out of it so I was able to let it go Most of all I enjoyed seeing Jacob realizing there was to life than ruthless takeovers and business 24 7 and that things he never thought he wanted in his life suddenly became everything he needed. Exciting, action packed and flat out sexy Karen Booth s

Pregnant by the Rival CEO is a fantastic addition to this series. Review copy provided for an honest review. Back in August I read a wonderfully well written romance by Author Karen Booth called That Night With The CEO it was so awesome I was salivating waiting to see if she was going to revisit these characters that I had fallen in love with well guess what she did Pregnant By The Rival CEO came out this month and once again Karen Booth stuns the reader with her ability to create fascinating characters that grab your heart and attention and don't let go This time Adam's little sister Anna and his former best friend Jacob singe your fingertips as they set fire to the pages of Pregnant By The Rival CEO. Anna had always had a thing for her brother's best friend growing up so she finally decided to do something about it only thing was Jacob lived by the man code that wouldn't let him do anything with his best friend's little sister months later that friendship is over and Jacob leaves their life as the hatred and animosity between the two former friends takes over. Six years later Jacob and Anna are back in each other's lives and keeping it a secret from her family what has started out as business has become much and about to become even when fate and a broken condom interfere. With her family struggling to save their business as a takeover is eminent and it looking like the man she has fallen in love with is behind it Anna does the only thing she feels right under the circumstances and breaks up with Jacob, only to find out the impossible has happened and the girl who couldn't get pregnant has gotten pregnant. With a problem pregnancy on the horizon Anna is forced to tell Jacob she's pregnant knowing that in the business world everyone would soon find out What will they do about the love they still feel for one another What will they do about her family and most important what will they do about the baby If the baby even has a chance of surviving For me this was an easy romance to fall in love with it continued on with a family I had already met and fallen in love with before and it was written by an author I have come to love but it also had the added troupe that I love, best friends falling in love for his best friend's little sister and motorcycles and pregnancy's to boot This is another must read for anyone who like Karen Booth's writing and her last book , That Night With The CEO So run out and grab a copy today and don't worry of you haven't read That Night With The CEO because

Pregnant By The Rival CEO is a stand alone romance that holds its own. The only thing I was left wanting to know was when are we gonna learn about their brother Aiden and read his romance. Fingers crossed. Karen Booth plans to do that because I'm already itching to read it. I was definitely hooked on reading this book when I saw the title of this one. Right from the start, I knew there'd be an interesting premise in this book from Karen Booth. Anna Langford, Adam Langford's sister from *That Night With The CEO*, has been interested in her brother's best friend Jacob Lin since forever. But a feud between Adam and Jacob put an end to anything that might happen between them. Six years later, Anna decides to take a chance on Jacob, even though she knows it will cause problems with her brother. It doesn't take much for Anna and Jacob to end up in bed, and once they do, their continued relationship puts them at risk of losing it all. Business takeover rumors push things to a head, and well, things get rough for the lovely power couple. Oh, and I did I mention a surprise pregnancy. Karen Booth does a skillful job of constructing a believable and very heart warming situation between business rivals here and I loved that the most about this story. The beginning was a bit slow for me, and it wasn't until these two get between the sheets that this story took off for me. I liked how this story was connected to the previous release *That Night With The CEO*. *Pregnant by the Rival CEO* is a great addition to the Langford family story I hope there will be. Overall, *Pregnant by the Rival CEO* is a sweet romantic story perfectly sized for an afternoon read. ARC provided for review. Gostei hist'ria bem interessante e que prende a aten'ção do leitor. Rivalidade nos negócios, briga entre familiares, amor proibido, gravidez não planejada. 4.5 Star Full review to be posted on *Heroes Heartbreakers*. This was one of those perfect reads. Great hero, great heroine. Solid plot with perfect twists. If you like romance at all, check this one out. *Pregnant by the Rival CEO* is the 2nd installment of Karen Booth's *Langford Family*. We caught a peek at Anna in *That Night with the CEO* and I admit that I was very curious about her. Well, she certainly did not disappoint in this book. Nobody puts Baby in a corner. Anna Langford is waiting patiently to take over as CEO of her father's company. Her brother, Adam, has been leading LangTel since the passing of her father. However, he has had a lot of pressure to keep the company going and

Anna is ready for her turn to shine She is definitely inspiring and an intellectual Anna is confident and determined, and I love her will to see her family s company shine better than before She also has desires and wants, a family and a love of her own Well she gets the crazy idea to get in bed with Jacob Lin Good lordy gracious is this man so well written and described Booth once again writes her leading man battered in gorgeous, rolled in intelligence, sprinkled with spunk, and a nice dipping sauce of sweetness to boot He gets pulled in, rather willingly, by Anna and he just can t let go.This story is simply divine There are twists and turns that made me think I was at theme park The Jacob Lin ride was rather delightful and I look forward to riding that one again wink This book is definitely romance made hard, a diamond forged by past pain and family rivalry, but it shines so bright in the end.Get your own copy to read and you will fall in love with this story of Anna s rise to the top of Jacob, I mean her career Limited Edition sizzling, motorcycling Jacob Lin is not included He s already mine I received a free copy of this book for a honest review
