Marcus is doing the best he can as a single father to a teenage daughter However, he was prejudice and stereotyped by trying to get her to wear dresses and do girly things Zoe should have pushed when she suggested Marcus sign Linnie up for self defense classes after she ran away She must not have told her father about her attack Zoe was doing her job, which involved investigating houses that Marcus firm was rebuilding after arson But she was bitter about physically not being able to smoke jump and was overly critical because of it I admire women like her that do jobs that I would never have the courage to do There were a lot of ups and downs, funny, and suspenseful moments in this sexy romance.

I received this book from the author in exchange for an honest review. This is the third book in this series that I've read and each book has been consistent without being repetitious. In this book, there's a female smoke jumper firefighter Zoe who gets injured in the line of duty and has to take a job as an arson inspector until her injuries heal. During the course of an arson investigation, she meets and immediately becomes both annoyed and intrigued by a widowed father, Marcus. Even though he's her main suspect, her feelings for the man grow, as do her feelings for his daughter. Should she risk her heart or risk her job? I have to say that I didn't enjoy these characters as much as I did in previous books. We've actually met Marcus and his daughter before in the first book. He's the brother of the main male character in book 1. In this book, we get into his story and how he falls for the fire investigator. I actually sympathized with Marcus than I did with Zoe. She was in a bad place and kind of let that influence her mood and behavior. She had a bad attitude about people in general that seemed to influence how she acted around them. She kind of got on my nerves. As did Marcus' daughter. And his family. I personally seem to think there's a fine line to parenting and everyone was making it incredibly hard for him to do what he deemed appropriate for his own child. His daughter came across as a bit rude, mouthy, hard-headed and insolent, but I tried to remember that she was only 13 and that's generally how they tend to be. Marcus had his good moments with her that seemed to balance it all. The book was interesting, although I didn't enjoy it as much as the first two books. I think the characters just didn't do it for me. I liked the idea of Marcus being a single, widowed father. But I didn't enjoy the daughter being in the story as much as I thought I would. I didn't enjoy the romance between Marcus and Zoe as much as I thought I would. As with the other books, the HEA came suddenly and abruptly. I needed a bit convincing to see these two as a viable pair.

This is the third installment of a series where each book  
is a stand alone story In this story Zoe is a smokejumper  
recovering from an injury, and is working as an arson  
investigator temporarily Her assignment to investigate  
suspicious fires leads her to the Ricci brothers who own a  
growing construction business Zoe has an attraction to  
Marcus Ricci who is a widower with a teenage daughter

Can she keep it all business especially after Marcus daughter Linnie forms a bond with her Linnie doesn't fit into the typical feminine mold and neither does Zoe A great well written romance I received a free ARC copy of this book in exchange for an honest review.

Joining Hearts is a type of romance read that is rarely seen in the genre A thrill seeker heroine with a take charge attitude falling for a mysterious father with a teenage daughter Marcus and Zoe fit well together for me She was a high strung individual and Marcus helped to even out the flaws in her personality Zoe brought out Marcus hidden adventurer and even helped him to open up and heal from the pain of loss What started out as suspicion ended up growing into a relationship that worked for these two individuals and made them better Iona Findley is on point with her Hero s Heart Series.

Zoe is a smoke jumper firefighter paramedic who was hurt on a jump and now is recovering in New York City while working an arson case One of the suspects turns out to be a contractor who is rehabilitating 3 of the homes burnt Marcus is a single dad who is raising his teenage daughter, Linnie, and they are both trying to figure out

how to survive growing up This is a heart warming story and watching Zoe and Marcus and Linnie fall was so special The characters were all well defined Even though this is the third installment in the series, it is a stand alone Received a copy of this book in exchange for an honest review

This is the third book in the Hero s Heart Series This book was just as heartwarming as the previous two This book involves Marcus, who is in the first book, his teenage daughter, Linnie, and Zoe Zoe was injured in a fire jumping incident and is recuperating During this time, she is working as an arson investigator Her investigation leads her to Marcus Reid, of the Ricci Brothers construction business Zoe and Marcus, both have baggage for their past, and Marcus has control issues with Linnie Together, Marcus and Zoe, make an ideal couple Since I remember Marcus from the first book, it was really nice to hear his story Great love story.
