Labai patiko I received this book through the Goodreads First Reads program. This was my first introduction to The Infamous Arrandales I wasn't sure what to expect, but having the heroine saved from rascals by a man running from the law wasn't it. There was definitely some excitement. There was a love story. There were likeable characters. I was not overly impressed with the progression of the story. There was far inner thought and travel than anything else. Honestly, the best parts of the story happened while Wolfgang was involved. Overall it was a cute, fast read that was everything you would expect from Harlequin. I'm not sure if I will change the rating in the future. The storyline just happened to coincide with what type of story I wanted to read. Half of the book is about the two main characters journey to secure a ship back to England. Is this counted as spoiler? It might be a boring book to some people because most of them are repeated scenes. They traveled, find a place to eat, sleep, travel again, find a place to eat, sleep again, and so on. I don't mind the repeated scenes because they met different types of people who offered them a place to eat, sleep. Since I have never travelled in that style, this book is as far as I can get to experience it, though I'm sure there are other way better books in this subject. I love Cassie and Raoul enough. They have a good dynamics, not too. I don't care, I got to have you now when they realised they were attracted to each other. Raoul really took a good care of Cassie the whole journey, while Cassie constantly proved herself that she could be Raoul's helping partner that she wasn't representing the stereotype he thought of her. Dodging gendarmes and highwaymen on the

roads of Napoleonic France, Lady Cassandra Witney and fugitive surgeon Raoul Doulevant could not be a unlikely pairing She, the daughter of a marquess had impetuously eloped with a womanizing gambler who had broken her heart long before he left her widowed He, on the run from an unscrupulous French officer who has vowed to make him pay for insults rendered Though the connection between the two deepens as their adventures on the road bring out the best in themselves, there is too much keeping them apart nationality, family, rank, and personal histories The obstacles Sarah Mallory places in front of her hero and heroine seem so insurmountable that by the end of the book the reader is praying for anything, even a deus ex machina, to give the two their much deserved happily ever after The suspense is heightened by the challenges they must surmount before fleeing France in the dead of night Return of the Runaway is a page turning read. It was o.k., though not my favourite in the series up to yet For most of the book its about Raoul and Lady Cassandra trying to flee France in 1803, and the last two chapters are set in England I found the story like lots of others I ve read.³ It was fun reading this book The heiress elopes with a gambler and a cheat and soon realized her mistakes When her philanderer husband is dead, she tries to return to her family but faces various perils on the way in the times of war A Belgian surgeon escaorts her and amidst all their troubles they find love It Seemed Such An Adventure To Elope Lady Cassandra Witney Once Left Behind Everything She Knew For Love Now Widowed, Disillusioned And Stranded In France, All She Wants Is To Return To England, Beg Forgiveness Of Her Family And Forget About Men Forever But Cassie S Resolve To Never Fall For A Man Again Is Tested When Fugitive Raoul Doulevant Offers To Escort Her On Her Journey Infuriating He May Be, But He S Also Honorable, Brave And Dangerously Attractive Perhaps Raoul Could Give This Runaway The Home She S Been Yearning For Miniseries
