This book doesn't have an instructor participant clear  
division like separate textbook or pages or guide or what  
but otherwise thought provoking and helped me formulate

my credo Best done in group, or if you can't get that, hey message me, we'll talk it out

I read this book on my own in preparation for a workshop, rather than using it with a group of others as it is intended. I suspect my review would be favorable if I'd been taking the time to complete all the exercises, and had a group to discuss the readings with. That said, the materials that are here to prompt reflection and discussion are inconsistent at best. Many of the quoted passages Gilbert includes in the text are spectacular. Gilbert is well read, and chooses wonderful sources to further his readers' theological explorations. But Gilbert's own writing is so preacher-like, the kind of writing that reads well aloud, but is hard to make sense of on the page that I often found myself groaning slightly when a quote ended and I realized we were returning to original material. By the end of the book I was skipping from quote to quote, and only skimming through the explanatory material in between. NOTE: A few days after writing the above review, I began the second book in the BYOT series. Its writing and/or editing is much polished, making it much easier to appreciate the author's insights and allusions.

This is the textbook we re using for the build your own theology class I don t like everything the author writes in the book, especially some of the references he uses to historical figures, but it is a thought provoking book that has had me stumped on many a page I highly recommend it as a way to work through your thoughts about what you believe and what spirituality religion means to you.

Quite possibly the most poorly conceived book ever Not the place to go if you are looking to clarify your theological beliefs.

I read it for a Unitarian Universalist class Some parts were not easy reads and over all it did its job on being thought provoking and helped me to look deeper at my beliefs.
