VOLUME ONE A Real Man Always Does It Better This Volume Contains The First Three Books In The Real Man Series Book Lumberjack She Hasn T Been With A Real Man Until Now Book Virgin She S The Only One He LI Ever Want Book Baby Fever I M Going To Put My Baby In Her Sweet and Sexy Ms Snow gives us three sweet and sexy tales filled with over the top Alpha makes and tons of Insta love for the women who have caught them. LUMBERJACK review A storm is coming and our heroine is stranded in the woods and needs to find shelter And what do you know She stumbles upon a cabin and who s inside A very horny lumberjack who just happens to be into red heads This is a fast read. Especially if you re in a reading jam and needs something to snack on before you can start a longer book. ENJOY VIRGIN review If you re looking for something short and sweet, this is definitely for you. You ll need to turn your brain off for this one. This was a late night audio for me. Go buy the audiobook and enjoy. You ll find some clich s here and there, and I did roll my eyes all the typical possessive alpha lines, but they won t stop you from following the story. ENJOY BABY FEVER review Third book I ve read in this series and the reason I ve practically ripped through three of them in less than two days is cause these books have been quite short At least, so far. And this one, even if it received the same 2 star rating I gave the previous two, it was quite a strange little book, to be honest. The hero apparently has something called Baby Fever and he has chosen his mate, the heroine to breed with I was much amused while reading this Though, I have noticed that this was practically Bam Wam Thank You, Ma am with this

one. The relationship moved rather fast, even if it was already somehow halfway established before the book took place. I wanted a little development to the romance and I didn't get that at all. But these books are like little greedy snacks you take here and there throughout the day before your big meal. So don't take them too seriously. Because I reckon the author meant them to be that way. ENJOY Goodness me I've read quite a number of reviews prior to picking up this gem. Thought I know what to expect, but I underestimated the smut level in this Great series of books. Super fast and steamy.
