This was the first book I read by Irene Vartanoff and I really enjoyed it.Sara is an interesting character, at first she is still a bit naive, but as the story unfolds, she can show her strength Lucas Steel is also an interesting character, but his attitudes are really strange about everything And when Lucas s rival appears in history, David, things get really interesting David is not just a pretty face in Hollywood, he has his feelings and also suffered with the death of Lucas s ex wife and his girlfriend at the time And when David and Sara begin to get together, things get even interesting.This is a very well written story and with complex and interesting characters.I received a copy of this book and voluntarily reviewed it. tragic accident that kills someone you loved what would happen to you Sara now has a second chance to get her lost love back, is it what she wants She has been sent by her boss to help Lucas finish a movie starring his dead ex wife who he still loves and he does not want to see the film finished because he blames himself for her death Lucas has become a recluse Then the author puts in a twist, the ex wife s lover comes into the picture, he too wants to see the picture made A complicated love story There are a lot of twist and turns in this book I will be recommending this book to my friends and family. I received an ARC copy of this book in return for my honest review.This was my first foray into an Irene Vartanoff book and I was pleasantly surprised I found the book easy to get into, the characters were very Hollywood Sara Finer discovers the difference between fanciful obsession and true love and in the process she helps the three men in her life find what they each need It was well written and engaged the emotions as each character faced their demons I will definitely be reading of Irene s work. I received an ARC of this book and am voluntarily writing a fair and honest review.Irene Vartanoff is a new to me author who writes an amazing story that is filled with a range of emotions Second Chance Reunion is a story about a youthful crush that has ruled Sara s life for many years and now she has the chance to reunite with the object of her affection However, due to a tragedy, Lucas is not the same man that Sara knew Lucas was devastated by the death of his ex wife and is now a bitter recluse Sara s job is to finish the movie in which the death occurred but Lucas is fighting her at every step Then add to the fray Lucas former rival and the emotions are even explosive This is a story that will keep you enthralled until the very end with many twists and turns. A refreshing and thought provoking take on contemporary romance from new to me author, Irene Vartanoff As soon as I started reading, I was completely intrigued by the complex characters and drawn into the middle of the story with insight into the filming world, surprising twists, and the beautiful backdrop of New Mexico If you re like me, you won t be able to put the book down I look forward to reading by this talented author I voluntarily reviewed an advance reader copy of this book. Second Chance Reunion by Irene Vartanoff is a very sweet romantic read This was the first work that I have read by

this new author Irene has created believable characters as well as a wonderful setting at a ranch in New Mexico I recommend this book for anyone looking for new romance writers. I received an ARC from the author, and this is my honest and voluntary review.If Second Chance Reunion was produced as a play or a movie, it would probably be categorised as a Drama, and the men in this novel are all about Drama with a capital D Caught up in a love triangle Jennifer, who was David s lover and Lucas ex wife, dies on a movie set during a tragic accident It would appear that neither man has been able to move forward Lucas is determined to bury the movie together with his ex wife, and David is just as determined to resurrect it, and see it to completion Sara, a film editor, is sent into this mix to persuade Lucas that the film needs to be edited and completed She has her own memories of a time when there was a possibility of a romance with Lucas, and she has always held a candle for him, hoping that he would turn back to her However, as they say, be careful what you wish for Sara uses all her negotiation skills to get through to Lucas, but David turns up and the fat is in the fire From then on, Sara has far to deal with than trying to piece a movie together.Although I found the attitude of the two men less than desirable, the setting and descriptions of New Mexico were beautiful, and the detail that goes into film making is interesting Sara seemed a little immature to start with, but as the male posturing increased, Sara discovered inner reserves and began to take charge of the situation, ultimately discovering where her heart really lay The book was also well written with good use of language, and easy to read. Hollywood film editor Sara Finer loved brilliant movie director Lucas Steel from afar for years Now she finally has a chance to win his heart when she s sent to his New Mexico desert retreat Lucas abandoned his career after the accidental death of his ex wife Sara s mission is to convince him to finish the film A hot button issue made hotter by the sudden appearance of his bitterest rival, David Lucas and David were both stuck on Jennifer as the ex and the current man It was frustrating that they both knew her flaws and were still set on placing her on a pedal stool of virtue, even to this day That Lucas was continuing to pine over her to the detriment of himself and his career was unrealistic Both men also used Sara and her immaturity against her and each other
