[Reading] 📖 What Matters Most (Arabesque) By Gwynne Forster – Soccerjerseys-wholesale.co

Bullet points because I don't want to have to think about this any more than necessary. The writing was like reading someone's very first fan fiction, only technically proficient. The dialogue was beyond ridiculous. I shouldn't be thinking of *Leave It to Beaver* when reading a contemporary book. No one, *no one* speaks like that in real life in the 21st century. This was a complete and total failure to make these characters sound like believable human beings. They kind of read like old-timey robots programmed to do improv. The dialogue was that stilted and their conversations would start off making sense, but one would end a sentence and jump to a non sequitur literally in the same breath. I felt I was yelling, WHAT WHERE DID THAT COME FROM, THAT DOESN'T MAKE SENSE every other page. They'd be having some ostensibly sweet moment and the next thing out of his mouth is something entirely random that set off a fight. Oh, Jack, this dinner was scrumptious, yes, it sounded exactly like that. Thank you, Melanie. Why do you keep denying you have any feelings for me. I AM NOT EXAGGERATING. This was constant. If you don't want to write cursing into your book, that's fine. Having adults in their 30s say things like gosh, gee, heck constantly makes them sound utterly stupid. There was no continuity. They'd have a conversation and a few pages later one of them would say something that completely contradicted the conversation. Why won't you commit to me. Okay, except you've had like ten conversations where you've each confirmed you'll only be with each other. Unless she could tell by the Porsche, she doesn't know how wealthy I am and she doesn't care. Uhmmm, what in the actual

fuck Let s say the Porsche actually didn t tip her off to his wealth I think him having an office in the rich area of town, paying for this clinic in the poorer area on his own, the fancy ass wealthy things he wears, buys, throws around, etc etc etc etc etc would freaking tip her off Honestly, the whole thing was this nonsensical Did an editor even read this Worst attempt at an alpha male Ever It s not all that cute to begin with, but when the author writes it with all the deftness of a toddler finger painting it becomes painful He is the most over sensitive, YOU MUST TELL ME YOU LOVE ME WHY, EVEN THOUGH YOU VE JUST SHOWN ME AFFECTION TWO SECONDS AGO, WILL YOU NOT SHOW ME TELL ME THAT YOU CARE ABOUT ME No lie, these are things that were said Yet he was controlling to the point that he literally buckled her seat belt for her every time she got in his car He would give her commands constantly It was so clunky and awful The Heroine read like a teenager than someone who is 31 years old and not because she only referred to her father as Daddy Her behavior and reactions to things were so stupid But so were his I wish they wouldn t breed, their children will be dumb as a box of rocks and emotionally volatile And the reason why she was only finishing up her schooling at this age was never addressed The plot was so basic and clich d I still can t believe that this was somehow 300 freaking pages long There was so much random crap It makes no sense that it rambled on that long without really saying anything No, seriously, *so much of it didn t make sense* The character actions, reactions, interactions, and motivations were so dumb Again, I spent way too much time stopping reading to exclaim how much what was going on made no damn sense whatsoever HOW WAS THIS 300 PAGES No, seriously, how is it even possible an editor read this Honestly, I could really delve deeper into all of these points and find new ones to bring up and give countless examples which I kind of want to do because I want you guys to understand my pain but I ve

already written than I had intended Apparently my abject frustration from reading this kind of poured out against my will.

[Reading] 📌 What Matters Most (Arabesque) By Gwynne Forster – Soccerjerseys-wholesale.co

Where do I begin I think when you get to the point where you don't like the characters, you should stop reading. However, I didn't take this step. The more I read, the more frustrated I became. I was so frustrated that I started taking notes. Yep, you read correctly. NOTES. I was listing all the items that irked me, but that soon became too much. So I just started skipping pages. Ugh. SPOILER. When her father came to her place of employment, it was OVER for me. Gwynne, really. She's 30 yrs old. Like, really. I'm so mad at Gwynne right now. Not only am I mad at Gwynne, I'm mad at myself. I had read a horrible review, but I purchased anyway. Should've listened, and then I wouldn't have wasted my time. Can I give a negative star? Suggestion: WARNING. Don't read this story because your intelligence WILL be insulted. And I'm not talking about some books where it's a simple story; therefore, you don't have to think. This story is so dumb that you will start questioning everything the characters are saying..like in what world do the characters behave in such fashion. I enjoyed that the character was in her 30s because I get tired of reading about early 20 yr old virgins, however, she was an unbelievable 30. There's like a 10 year mental growth that most people have once they reach the 30s, however, this character acted like she was 13. Ugh. In the past, I have enjoyed Gwynne's writing style. However, she lost me on this book. Previously, I liked the characters in her book. I even repurchased a book that I

read many years ago because I loved the story This book should ve ended on page 10 It did not take all those pages to draw out the story.

[Reading] 📖 What Matters Most (Arabesque) By Gwynne Forster – Soccerjerseys-wholesale.co

Jack and Melanie servants together Opposites attract but even that requires a common good With two people who are left wondering what direction they should take come together as a result of humanitarian efforts it was to be commended For to see Melanie have to stick up for herself not only with her father but with Jack was worth reading and seeing the story unfold It was good to see a visit with the Harrington brothers Alexis the voice of reason for Melanie was perfectly interwoven into the story This story has many dimensions and for me the pacing and foundation set was just right.

I like the way this book shows dating She just didn t jump into bed with the Doctor, they both took their time even though the sexual attraction was there More books need to suggest waiting on sex.
