Good story Good story Love the characters Almost nonstop action The flow of the story is great And it leads up to the second book really well. Alicia Wolf is genius I loved reading Dragon Shadow I was pulled in from the first page The main character is Jade McClaren who is 1/2 human and 1/2 somethings else and her sister Ruth who is full Witch I love Jade s attitude when it comes to a certain handsome Fae Lord and Knight to the Queen. While reading I found lots of action with the turn of every page and lots of sarcasm with a lot of snarkiness from certain characters of which I loved The setting is in a New York but on top of the High skyscrapers you will find the Fae Palaces Quite creative I thought and very beautiful I might add If you are wondering what the palaces look like you need to read Dragon Shadow I did and loved it You will discover a whole new world where Jade and Ruth live in And it is full of magic from both the witch and Fae so much that when you are done reading you will want I can not to see what lies in the future for Jade and friend in the next book. The Fae Lords Have Come To Our World, And The World Has Changed Around Them Jade McClaren Is A Thief With A Mission And A Secret She And Her Sister Ruby Make Their Living Stealing Magical Items From Bad Guys In Magical New York, But Jade Is No Ordinary Cat Burglar She S Only Half Human The Other Half Is Something Else When She Steals A Magical Item From The Wrong Man, She Attracts The Attention Of Powerful Enemies, Plus The Pursuit Of The Relentless Fae Knight Davril Stormguard Something Dire Is Happening In Post Fae New

a gruesome fashion and your sister is kidnapped, you don't go to parties and ogle at dresses and sigh over masculine jaws and hard abs. You don't leave for tomorrow; your sister's rescue. You sharpen your blades, you get your supernatural feelers out, and start collecting favours from sleazy alley imps to get your sis back. Plus payback. That's what I would do, and I'm not a half dragon shifter like she is. DNF at 30%. I thought the blurb on this book sounded intriguing, and I was excited to read it. I didn't get my hope up too high as I've been burned a little in the past with the book not being quite as good as the blurb seemed it would be. I needn't have worried; this book was excellent. Jade is a wonderful protagonist who wants to rescue her sister Ruby; however, she can. She was full of fire and life, and she made an interesting foil for Davril, a fae Knight, the one who is also after the item that will bring back Jade's sister. Everything in the book was easy to follow, I found the world to be extremely interesting, and I really liked all the characters. The author wove a well-written, action-filled, and hard-to-put-down book, and I for one can't wait to read the next one in the series. Highly recommend. Thanks to the author for the e-book which I reviewed voluntarily. A great new urban fantasy series that centers around Fae and magic. I absolutely loved the story and got sucked in from the very first page. There was plenty of action, adventure, romantic tension, and just kick-butt fun. I enjoyed the characters and can't wait to discover about them. I can't wait to read the next book. I voluntarily reviewed an arc from the author. I received a complimentary copy of this book. It's a fun little book, just the right length to be enjoyable as a romp through urban fantasy land. The characters are interesting, but not very deep. It didn't have time to really develop the characters yet or to really make me care about them. There's just enough to keep my interest though. The main character is a fiery, pun-intended chick who is on a mission to take the baddies down a notch, and maybe get her fire back one day. She gets into some dangerously fun situations and works with the fae to solve the main problem and rescue her kidnapped sister. The audio narration was great, good voices and pacing. The book is set up for an interesting series with the big bad spanning multiple books. This one set up a new partnership in our main character's life. Final verdict: Fun urban fantasy, but not too deep. Stolen Dragon Fire. A nice piece of

urban fantasy meshed together with a unique blend of the modern together with elements of the traditional fae. A good action story with a snarling, kicking, feisty heroine. There's plenty to like with the magically inclined, castles on top of skyscrapers, broomsticks and a fae queen complete with her sexy fae guard. Returning I gave up less than 45% into the book. The heroine only seems to be capable of telling or screaming or falling apart. Her sister gets kidnapped and the emotion in that scene fell so flat because this chick is all over the place. Who gets drunk, watches their sister get kidnapped, gets attacked by 4 people, gets hunted by a fae knight, and then walks in their home to grab another drink. Like getting drunk is going to solve anything. In top of the idiotic choices, she has insta lust for her crush. As always, I seriously dislike this in a story because it's a way to get around having to actually write the romance into something believable. It always feels like the author just doesn't want to bother with the effort, and when you see that you also see where the effort is missing elsewhere in the story. A paper thin Cinderella construct with faerie castles and a ball is never satisfying. Add in thin plot and just as thin characters. It was a stilted and formulaic read, and once again we have a heroine bent on revenge who should be able to defend herself but can't fight her way out of a paper bag without her make counterpart rescuing her. His typical I am stronger than you so you must do what I say routine is equally sexist. What bothers me most is that this book isn't billed as a damsel in distress story and it should be. If it had been, I wouldn't have bought it. To be clear, this is not an independent woman surviving and thriving story whatever the summary says. If your tastes mirror mine, skip this one. If your tastes line up with this kind of storyline, and you are ok with a shaky plot, at least in book 1, then read on.

A THIEF. A FAE COP. A WORLD TO SAVE.
