Jaeme with Lizzie occupying the guest cottage life is good then a body is discovered Women are being abducted but apparently they are going willingly They are tortured and killed The victims are all different ages and the methods of their murder are also different but there is a clue that links them so the team are definitely hunting a serial killer. The characters are unique individuals and build in complexity over the course of the story into well rounded, realistic people We learn about their background and personality as the investigation proceeds and there is a smattering of personality clashes that makes for a very realistic read. The setting is South Africa, a country I know little about, and I really enjoyed reading about the area and people. It is a fast paced read that had me turning page after page A lot of victims and numerous twists and turns kept the adrenaline pumping all the way through This is a psychological thriller in every sense of the word and ticked every single box of my criteria for a great thriller Awesome read and I am looking forward to book 2.5 stars from me. This is a book by a new author and reading it left me with a great desire to read the next one in the series. Alex Reid is a detective on the Serious Crimes squad in South Africa He has a partner, Fadi, of a different race and religion but they work extremely well together Alex's wife, Jaeme, is an artist and they live in a beautiful house, with Lizzie, their dear friend, living in a cottage in the garden Life would seem to be wonderful for them but it changes when a serial killer begins his life's work The killer deliberately sedates his victims so that they can't struggle against him but they can still feel pain and, boy, does he cause them great pain His victims are variously skinned alive, scalped, burnt alive or, as in the case of Jaeme, raped and left to suffer the consequences. Alex knows he has to find this man, the killer the media call The Executioner, as quickly as possible but is the killer deliberately targeting Alex This is a very fast paced read which has been very well written by its author and, unbelievably, is the author's first book I am looking forward to many books by Heather Opperman and recommend this one to all lovers of crime fiction I cannot recommend it highly enough. Gripping right to the end This book took my breathe away, reading page after page Detective Alex Reid the main character, he specializes in serious and violence crimes I loved this thriller once I started I couldn't wait to pick it up again and
