I m honestly not sure how I managed to push myself this far through the book DNF at 45% although to be honest I wanted to give up almost my chapter three But I had to be fair to the author as I d like some of her previous series Maybe I was judging it too early Spoiler I wasn t The first chapter had amazing detail and description and it drew me right in I was excited for where the sorry went By chapter three this had turned into every other RH forced into a team together type book But without some of the important details Like, for example, a plot line Or any world building whatsoever Annora the FMC is supposedly scared of all contact and of men in particular since her Uncle tortured her from a young age that isn t really made clear This is, of course, practically forgotten by chapter six The university Annora has found herself in is never described There is no mention of classes, professors, curriculum The term starts in one week from when Annora arrives yet everyone has already been at the campus for months And on top of this there are teams for what I have no idea , and the one Annora is shoved into has the other members training students for something or other Students or teachers Let s not even mention the gym owner director of the university inconsistently Even if the details of the so called plot were consistent and less clumsy, who would in their right mind force and young 20yr who has no experience of the outside world e.g she s never been in a forest , who s deathly afraid apparently of men and people in generally with lots of trust issues, to live in a kind of hard to find house with a load of

strange men These people have reputations of having their roommates running screaming back to housing to move Does this sound like something an abuse victim would casually shrug away and promptly forget, even if she is the true mates of them For all of you who made it this far, I apologise for the rant But trust me on this, it was well worth your time if it saved you from buying Tethered To The World. It s good, it just doesn t make sensePros 4 starsGreat female lead Strong, not annoyingThe guys are awesomeLoved the Paranormals from a troll with living pink hair to a poisonous lizard Great characters.Cons 3 stars probably will end up giving spoilers so don t read further if that will bother you The whole concept just felt off to me.I m not a fan of insta love They are all head over heels in less than a week While this is not my fave, I wouldn t take off stars for that because some people enjoy that in a book.Absolutely no world building School structure is not really explained Other than to say school will start in a week.The whole university concept Schools not in session, but they are having try outs for something Everyone is on campus before school starts and have been there for a while since the disappearances have been going on for months Who stays at school when it s not in session A few sure, but it s like no one has every left.Confused about if the guys are teachers or students Why would you have a student housing with her possible teachers If they are students why are they heading up the training.Rufus gym own director of university So she just happens to be saved by this gym owner who also happens to be a director of the university for supernaturals This is kinda explained away as he had taken a leave of absence But All the guys knew who he was I mean come on really and the fact that he sorta knew they would all be mates No, no the plot lines needed to be stronger than this for me.The whole time I was reading it I m like I love these characters but this makes no sense at all Why am I reading this oh yeah the chemistry between the characters is really good I will probably read the next book. ONE TOUCH CAN SAVE YOU FROM CERTAIN DEATHOR SENTENCE YOU TO AN ETERNITY IN HELLBorn With The Ability To Defy Death, Annora Has Been Warned To Keep Her Gift Secret, But Her Greedy Uncle Can T Resist Exploiting Her By Any Means Necessary Starvation, Beatings, Broken Bones She S Survived Them All And Emerged Stronger But It S Not Enough For Him

It Will Never Be Enough When She Discovers Her Uncle Plans To Sell Her To The Highest Bidder, She Risks Everything To Escape The Prison That Has Become Her Life The Last Thing She Expected Was To Land At A University For Supernaturals or Be Paired With A Pack Of Men As Broken As Her As Students Go Missing, Annora Can T Get Over The Suspicion That She S Being Hunted To Protect Her, The Guys Must Set Aside Their Personal Troubles And Begin Working As A Team But As Her Past Collides With Her Present, She Must Make The Ultimate Sacrifice And Expose Her Secrets To Save The Guys Who Ve Become Than Family To Her and Hope She S Strong Enough To Live With The Consequences A Phantom Touched Novel Book Meet The Pack Annora, Camden, Xander, Mason, Logan And Edgar Typical reverse harem story line, no story line and adoring eyes from all the guys. Whew This was probably a 4 4.5 star read for me It was kind of phenomenal and I m loving this story line so far I m not quite sure where to start This story ended up being on the darker side but the characters and the backstory really made this a captivating read I loved all the characters Annora, the FMC, manages to be both vulnerable and strong at the same time The chemistry between Annora and all our guys is on point All the guys have wonderful differences and different strengths and weaknesses as well as really in depth backstories Heck all he backstories were tragic and horrifying but you could see how they have shaped the characters and brought a whole team of misfits together I was absorbed from page one and didn t stop till I hit the last page. Annora has spent her life in captivity, after her mother dies Kept captive and abused physically and mentally by her uncle Annora is used for her supernatural abilities to heal and stay off death The book starts with Annora having escaped from her uncle and living in hiding trying to avoid capture again Annora is trying to live a normal life, until a pack of shifters break into her job and try to kill her boss Annora uses her abilities to save her boss exposing herself to the supernatural world In an attempt to help her hide her boss sends her to a supernatural school to learn to defend herself as well as learn about the supernatural world she has been kept from all these years Upon arriving at the school she is put on a team of supernaturals to keep her safe from her uncle as well as for her to help them solve a case of missing

supernaturals Unfortunately for them all just as they are growing closer and discovering about each other the case brings them closer to answers as well as closer to Annora's biggest fears As she conquers fears with the help of her team, Annora gets captured by the ones taking the supernaturals and realizes that everything is tied to her and her abilities Now Annora must not only save herself but all the mates she has gotten along the way. Yes the worst part about this book is that book 2 is still so far away I'm super excited for this series and I hope it really keeps up the momentum I'd say it's mostly slow burn so far but not lacking in passion and chemistry at all This is the first book by this author I think I've read but I'm downloading of her series now to tide me over I really liked it The problem is that it's going to be a while until the next book comes out. Tethered to the World begins with the heroine running from someone She finally found a place that will teach her to fight, but when she has to save someone's life, she lets out her secret, and now he wants to help her by sending her to a school to help train her This book sort of felt like it was all over the place It had an interesting story, and I enjoyed the characters But at one time it felt like the heroine was a bad ass, then the next she needed help, so that was annoying Other than that, I liked it, and I look forward to.

Aaaaaaaallllllrrrrriighty iv been awake for 35ish hours with only a few hours sleep so this review is a bit shit, but harsh, grain of salt people we have one young lass with a trauma past background warning warning triggers be aware At the hands of her uncle for many many years, she is a super natural creature aka the most powerful being ever and she needs protection from the academy of super natural creatures and she gets put with duuun duuun duuum the top four alphas who can't help but fall hard for her It's suppose to be mid 20's but all the trauma and daddy mommy issues leaves them teenagers 75% of the story is set in the academy house where the MC bonds with her harem slow burn There is a some action, some magic talk Some stuff happens Harem members get a bit blended I get acanana that spirit dude who is a bit of a disembodied voice kind of vibe here hunter from the dead world Debbie Cassidy vibes towards the end of the book I would read the next one I didn't mind it to be honest. rating 3.5 Tethered to the World was a good book but ended up annoying me at times

Mostly because of all the explain s or whatever that bullshit was PLUS, I was kind of expecting from her villainous uncle Or is that just me I mean we got like five minutes of the dude and I feel like all he really did was just laugh It was weird but maybe he will be of an asshole in the next one Other than that, Annora was an okay character She was definitely interesting to a point and I liked her connection to the guys of the group I feel like Edgar might actually be my favorite Mostly because of his bad ass entrance at the end of this I still liked the rest of the gang but ya gotta have a favorite from time to time. That being said, the ending was ughh I hate cliffhangers Especially when it s one of her mates being taken instead of ya know her the person her uncle really wants Of course I m intrigued enough to dive into that book but ugh damn you cliffhangers. Please, for the love of RH, stop saying Explain or Tell me a billion times because it s annoying AS HELL I pretty much went like this when I kept seeing them all over the place Explain.Explain.Tell me.Explain.Tell me.EXPLAIN.Other than that, this book was okay I didn t love it, but I liked it enough to want the next one in the series.
