It felt weird to read about the first meeting and how the relationship started between Lauren and Neville, after reading the series in which I just seem to remember them bickering, fighting or having sex every single time I was expecting of a closure, not an opening And this book certainly did not convince me those two were made for last. Otherwise quite a nice story, with some explanations missing here and there, for non readers of the series Nice steamy scenes and plot build up. Lauren and Macy are looking for a place to buy Anton Neville has a loft to sell When he meets them to show them the place, Lauren is spellbound. So now what Lauren wants is Anton and she will do anything to get him. A very fast fun read which I enjoyed very much It was light and full of humor The first for me by this author and definitely will be the beginning of a lot TBR s I will check her other books soon Quotes I enjoyed from the book Her eyes grew both wide and bright and Anton felt a strange stirring in his gut An unease that told him he was asking for the sort of trouble that had a good chance of turning his well ordered life upside down This is so great Can you imagine a little candlelight, a little wine A lotta lovin under the stars Listening to the traffic below and trying not to get caught Lauren hugged her arms around her middle, whirled back to Macy, and said, I can t wait to try it out Only it wasn t Macy standing in the open doorway behind Lauren It was Anton Neville And he said, Neither can I. Intense, hot and thrilling This book takes you on a journey of wicked passion and a blooming love.
