?KINDLE? 🌸 Blood Wolf Author Steve Feasey – Soccerjerseys-wholesale.co

This review contains spoilers from the second book in the series. At the end of the second book in the Changeling series, Trey discovered that he has an uncle who's still alive. In this third installment, which basically takes place in the span of only a few days, Trey travels unannounced to Canada to meet his uncle, against the wishes of his friends Lucien, Tom, and Alexa. Unfortunately, Trey's uncle, Frank, isn't what he thought or hoped he would be. He lives alone with his dog on land that's supposed to be protected from vampires due to a deal he made with a demon long ago. Because of this, members of the new LG78 pack, the old one disbanded years before, led by an alpha werewolf named Jurgen, live in lakeside cabins on Frank's property. Trey learns a bit about his family from Frank, which leads him to make some life-changing decisions. Jurgen, however, feels threatened by Trey's sudden arrival and has different plans for him. Meanwhile, back in England, Lucien, Alexa, and Tom are trying to help Philippa, who had been taken over by a Necrotroph demon, recover from her experience and from the death of her father. It also seems that her ordeal may have resulted in an ability that could help the trio with the latest problem they're faced with. Unfortunately, Lucien is having difficulties of his own, which could have disastrous results. I liked this book quite a bit. As with the second book in the series, *Dark Moon*, it alternates between what's happening in England with what's going on in Canada. We're introduced to several new characters, and Philippa, who's not the brat she was in the last book, has an expanded role. The stories being told are completely different; there's a good amount of cat and mouse with the group in London as they try and stay one step ahead of the demon that's determined to kill one of them, while Trey is still dealing with being a werewolf and finding others like him. The book concludes with not one, but several loose ends, and I look forward to seeing how things play out in book four, *Demon Games*.

?KINDLE? 🌱 Blood Wolf Author Steve Feasey – Soccerjerseys-wholesale.co

2 minutes of happy, can t we get 2 freaking minutes
Steve I mean COME ON This book much like the first
and the 2nd was full of action, from the minute I picked it
up, the story is moving, at a pace that s comfortable yet,
fast It had me rocking in my shoes, I loved this 3rd book
just as much as the firstTrey is still the same old Treybut
on his own to find out about who his family is, or was.I
love how this is a series, and while the main bad guy
stays the same, the stories are all VERY differnt, each
book has a different feel, to go with the differences in the
story Full review to come soon.

A terrifying and fabulous trip through many many
adventures along mythical creatures vampires, lycans,
demons etc I really enjoyed it even the open ending It
has just 3 stars from me because somewhere in the
middle I felt like it was taking too long for the desired and
log waited action.

?KINDLE? 🌟 Blood Wolf Author Steve Feasey – Soccerjerseys-wholesale.co

The book could have used character detail, backgrounds, and some involvement. Aside from this it was a terrific book with the right amount of gore and action.

?KINDLE? 🌟 Blood Wolf Author Steve Feasey – Soccerjerseys-wholesale.co

A lovely concept, overall, which I think would have broad appeal to both youngsters and us oldies who would read young YA literature. I certainly kept turning the pages because Feasey succeeds in keeping me engaged. However, my inner editor cringed at the somewhat nebulous omniscient third person PoV that sort of edged to being a deep third but didn't quite settle either way. Added to that, the fact that I thought the book could have used a tighter edit overall. Simple things like he shrugged his shoulders when we all know shoulders are the only body part we would be shrugging. Can't see myself shrugging hands or knees, now can I? Dunno, perhaps it's because I edit fiction and already have a certain style that these little things jumped out at me and ruined my simple enjoyment of the story, but ja, that's just the way I roll. For those who don't care about nit-picking, I'd happily recommend this to anyone who has a 12-16 yo who's looking for a rollicking fun series involving demons, werewolves, and vampires. It gets a bit violent and sometimes characters' motivations are a bit murky for my liking, but it's still a fun read.

The third installment of the Wereling series Lucien and Alexa are trying to track down the Necrotroph who has invaded their organization with the help of the recently possessed Phillippa Tipsbury Trey travels to Canada to meet his uncle and learn about his family What he learns might very well destroy him This book sets the stage for the next installment very well A series boys will thoroughly enjoy.
