Fab find for the spanko in all of us Amazing and totally worth the read filled with arousing, intense, and sexy as hell situations Will definetly read again. I found the stories in this book incredibly arousing and they definitely appealed to my submissive side If you have an interest in this subject I would recommend it highly I received this book for free through Goodreads First Reads.While the subject isn t my thing the stories are definitely arousing Some of them deal solely with spanking and others with sexual acts as well Many different stories are within, no two the same One thing that does carry through all of them is the arousal and fulfilment of the characters desires, While reading the stories, although I always had the constant thought that I couldn t understand the act of spanking being sexually arousing, the descriptions of the characters was arousal were in nearly all cases so good that I could not fail to be aroused to I am certain that if spanking is something that you enjoy then you cannot fail but to enjoy and be aroused by the stories presented in this collection if it isn t then I wouldn t be surprised if were not aroused yourself.
