an accurate representation of my face and nether regions throughout the reading of this book shockingly free of self consciousness, typographical errors, irony, plot, or restraint.luckily, the whole MPREG hormones turn military dudes into screeching old women thing didn t happen until after a good 90 pages of some decent fapmatter wait fuck misogyny if the golden girls ran into these dudes in an alley, only one group would make it out alive.the one with orthopedic shoes..a story of mixed success, then.wildly entertaining sexorz, horribly disquieting implications gay dudes are not rape barbies, k , and super unnecessary emo ketchup over everything view spoiler And losing them broke my heart into a million pieces that I suspected would never heal hide spoiler

First up, there is some weird ass shit in this book No lie humans as sex pets collars and ear tags dick milking machines eggs implanted in asses multiple erhm egg laying FORGET ABOUT ALL OF IT FORGET IT IT DOESN T MATTER.This is a story with such an emotional punch it knocked me right off my feet.Is it for everyone No, probably not There is a lot of weirdness to digest to be able to get to the good stuff But, for me, the weird stuff was fascinating than off putting I loved it, I loved the dynamics of the master and their pets I loved the introduction to their planet, there was no doubt that these men were seen, literally, as pets They were in frames, in a strip mall, waiting to be purchased Before they were bought the aliens inspected them for breed ability Once they were bought, they had an identification

tag pierced in their ears So, yeah They were pets, no doubt Did that make their relationships less loving and real Absolutely not I love the love that Dale and Mark shared The unconditional, forever, no matter what love they had for each other Just thinking about them gets me all gooey and weepy Yes, they were in a relationship with their master and eventually his two other pets Yes, they loved their master and needed him almost as much as they needed each other But Mark and Dale put each other first, always They had this complete, all consuming need for each other that I could feel almost from the moment they met. Acquainted with the Night spans about 40 years or so, there was a lot of heart ache and changes for Mark and Dale along the way, including the introduction of two pets into the household I always enjoy books that have a large time span I like being able to see the couple s survive through life and the crap that happens post HEA Because that s what happens in life, a bunch of crap and being happy with someone amongst all the crap is hard work So, despite the kuh ray zay world building, there was a believability to their relationship Seeing all the ups and downs and the struggles only added to my investment in these characters and the life they shared It was wonderful and beautiful and, in the end, heartbreaking. There are definitely some things I could gripe about, namely, all the sex There was a lot No really, I don t think they had any cum left in their balls More sex than I ve ever read in a book before, ever That much But I had so many damn feels in every scene that I don t even care So I have complaints, shrugs I m still giving this bad boy 5 hearts. This was an odd story, set in odd circumstances But ultimately, it s an intense, highly emotional, character driven love story One I won t be forgetting and will most likely be rereading in the future.

2.5 stars for the imagination This book is way out of the box It is the weirdest book ever, Eggs, Breeders, M M M M M M. It was all over the place and i couldn t feel any connection with the MCs or the even the story I don t even know how to explain so i will just direct you to Xia and Ele s reviews. The best part was the company, Ele, Moony and Xia thanks for the buddy read It was a very different long tongue and frame experience.

WANT TO READ ABOUT THE WEIRDEST BOOK, POSSIBLY EVER READ THIS REVIEW. I DNF after getting about half way through this book, and I feel guilty about it. but I can t force myself to guilt read. I also can t rate this book because I can t even tell if I d rate it a 2 or a 4.5 I have no idea. Where to start. Oh, by telling you there are SPOILERS afoot here yes. Was this the weirdest book I ve ever read I think so, yes I ve read a lot of books Ones fucked up, but this was by far the weirdest. This book gives puppy play a whole new meaning. Acquainted with the night As far as I can tell, these boys are getting fucked day in and day out, and night time has nothing to do with it This book should ve been called Bow Wows Big Adventure Doggy Chow Down Aliens Can Love Too Roll Over Rover So basically. men are sold to aliens so their anal canals can be used in

alien breeding Alright So aliens buy them, like dogs, and fuck them countless times and lay eggs in their asses they no longer crap, btw. aliens took care of that It s just so fucked Like they have these milking machines they milk their dicks. like cows. all the time. and plugs up their asses. and there are countless scenes with entire hand s up dudes asses. sometimes 2 at a time And like. aliens lay these eggs in there and it takes hours of pain until the egg latches on and then the dude carries it around for a bit, until its soft, then lays an egg, but during this process the aliens check on these eggs by rimming their human pets with their super long tongues Like, I m laughing writing this because it sounds totally made up, but it s not And humans are always naked and have manacles all the time and are fed and let run around in the yard to play. it s just so weird Imagine everything you know about a human beings relationship with a dog and now imagine that exact relationship with a human and two dogs, but also mixed in to a relationship a man might have with a flesh light uterus That s this book Hahaha Picture a relationship that is human dog dog dog dog uturus fleshlight milkingmachine and you have this book Viola But onto points of the actual story nowI thought both MCs were total bitches I don t even remember their names right now Kal and Pol was what their master called them Oh, get this They call him Master Woof woof They re just like WELL, BETTER ROLL OVER AND ACCEPT MY FATE and look. I know it s smarter to go with the flow, but they don t have even a little bit of fight in them. they seem so lame No spirit No spunk no pun intended No passion They just want to lay around all day and get orgasms while they have an egg up their asses I m not saying it s a bad life, it s just kinda blah to read about And they fall in love so easy But it s not even really love, it s definitely companionship And then their Master loves them. and that s weird too He loves them likes doggies Doggies you fuck And theres a point when Master kicks doggy 2 whose name I don t remember , and then he s so scared

of being taken away by the Pound that he literally cries and whines and freaks out like a dog It s ACTUALLY like kicked puppy syndrome. where dogs will love you no matter what you do to them I stopped reading after a scene where the aliens took their little puppy pets to a party to play with other pets and romp around in the fresh air I ve read spoilers as to what goes on during the rest of the book, and I m very meh about it.I am NOT hating on this book It was weird so fucking weird Too weird for me, but I m not saying it was bad I just can t do it I have a threshold for my weirdness that I thought was pretty big, but this was too big Probably as big as the giant alien dicks in this book.Friends, maybe try to read this book I don t even know I just don t know.

had me hooked from page one and tearing up here and there till last chapter to Epilogue Gosh What a turbulent emotional roller coaster ride it was It made me grin like silly and sob and laugh and getting upset when its character suffers any injustice Frankly, I was surprised to find a book that has tons of sex in it and yet still manage to actually have a solid storyline plus firmly maintains its reader s attention even when the volume of sex in it could actually drown you Took me only a day and a half to finish it Cos I was literally glued to its pages.This one is a MUST READ and MUST HAVE.

Bawled Bawled Bawled Sniveled Bawled some What a roller coaster this book was Some notes for those potential readers Do not read if you have a problem with  
1 Men as pets  
2 Men as breeders  
3 Men as breeders to aliens  
4 Men with lots and I mean lots of sex with men multiple partners does not even begin to describe some of the scenes Read if you like  
1 a story where the main theme is love  
If a person is safe, loved, cared for, not lied to they can adapt as well as overcome and thrive to anything.

Nothing is impossible This is an erotic book Yes and

No.Ok, let me start with why I think it s a VERY erotic book.4 men and 1 alien.Get it Oh yes it s veeeeery hot, and don t think twice if you are searching a menage book.Now, why it s not Simple I cry, than one time My question is how many times did you cry reading a erotic book sobbing, not just a little tear, huge sobbing scene, with someone asking if something is wrong So it s an erotic book, but it s also MUCH than that Amazing characters I love all of them and an AMAZING story The plot surprise me When I read the blurb the first thing I notice was the menage I m not a big reader of menage stories I m stupid, I know so let this book in my to read shelf for a while Big mistake, because I think it s one of the best plot I read this year No, I m not kidding.Dale in a military mission against a probably hostile alien specie will be kidnapped All the book is his POV but the quick epilogue and his life is heartbreaking All his questions, about what humans decide to do, to preserve the specie in a future, where apparently no human is happy his desire of his hope of be happy, anywhere, but find it happiness I liked it a lot Also his kidnapping is something unexpected I ll not spoil telling just one thing it s the best erotic kidnapping possible His place in this alien world is as a breeder, and his position is as a pet.No, I don t think it s a BDSM book even if there is all the pet theme No, in my view it s erotic and that s it Maybe is perfect to everyone searching a book about pet but don t think there will be a strong hand master No, the alien Dale s Master is incredible tender, and is a lover than a master.The menage is INCREDIBLE hot Boys and Girls if you want to read a m nages trois book READ IT NOW Dale and Mark at the begin and for a long while with their master is I.N.C.R.E.D.I.B.L.E sexy And after also , with Coop and Nate ohhhhhh I think I took something like 100 cold showers and molest my husband countless times because EVERYTHING IS EROTIC in this 4 guys and the master house You must be warned that MANY SAD things will happen, but regardless it I ADORED the end,

and ADORED this book I think it s one of those times I m really glad someone told me to read a book I had so many recommendations, and this book is in my list of the BEST recommendation EVER Don t let this book waiting if it s in your shelf if it s not, try it Open you heart to this heartbreaking multiple relationship story because love is also that share your life with than one person.Be happy, and happy reading5 stars

There s a reason why Dalton is my favorite author Only she can write a story like this, with all the crazy shit that s in this book and make it so I don t know, natural The setting and story is made so believable, so familiar It s so profound, so beautiful, so scary, so aching, so sweet and so much love Yes, this book is full of love, believe it or not Take a chance on this Read it, just go with it and emerge yourself in the setting and the story I promise you will not regret it and leave a part of your heart in this book.Ps Don t be put off by the bad cover.Pss For those of who ll balke at sharing and menage and stuff like that You have never read a story like this, where it s ehm fitting, feels natural I don t know how to describe it, but you haven t read anything like this before so try it out Please.

Holy balls That was not what I was expecting at all  
Seriously Ignore the blurb Don t worry about the whole  
MPREG thing Don t focus on the multiple partner aspect  
A fantastic love story Talk about tears, man That ending  
was so, so good.

This is by far the weirdest Sci Fi book I have ever read in my entire life I was feeling suffocated for the majority of the book and most probably I will not read it again ever not because it is not well written, but because it is too overwhelming. Dale is a human and a soldier fighting aliens and particularly the Algonquans He knows almost nothing about their race until he is captured by them Then he learns that Algonquans are neither females, nor males but kind of unisex and they need humans in order to be able to breed They will basically use their bodies to lay eggs inside them Humans are treated like pets They are looked after and loved and they stay with their master until they die being fucked and bred regularly. The book is full of disturbing images with continues rape for Dale firstly from the milking machines their name is self explanatory then from the master until he learns the process Dale learns to be a good boy and take it like a man and that the feeling of self preservation is greater

than the feeling of self respect It is explained to him that if he doesn't let his master breed him, many aliens will breed him I don't know I understand that the earth government is supposed to be bad people and the military is supposed to be the worst thing ever, but still it felt that Dale and his fellow pets are just suffering by the Stockholm syndrome Yes, eventually they will love their master and they will crave his attention. Yes, they will also love each other But they are secluded The only living things Dale is seeing most of the days are the Master, his servants, Mark the other pet and best friend and later on Cooper and Nate the newest pets. The ending I don't even know about the ending Is it supposed to be good Heartbreaking I don't even know how I managed to finish the book to be honest. I have to give extra credit for originality, but it was a really nerve racking experience for me.
