I m one of those people who don t like it when the narrative focuses on only one character So, obviously, this book was a great read with very unique characters who have their own chapters that last for a few pages without being too boring I had a connection with Claude, he seemed like he was preoccupied with his books even when the war was raging on. Ilya Ehrenburg is a second rate Russian author, and I mean this with no disrespect He s definitely not as good as Dostoevsky and Tolstoy, and it s clear that Bely, Bulgakov, Solzhenitsyn, and Pasternak are much better than him He was of Stalin s organ than anything, and it showed in this work Despite the fact that in other editions it has

than 700 pages, it's only 382 pages with this edition because it was published during the war, where everything was scarce, and because its font size is probably seven or eight. The question is would I unhesitatingly recommend this as a representative work of Russian literature. My answer is an unequivocal no. I think the best aspect of this novel is its characters. Ehrenburg may have been workmanlike with his plot, but there are, at least, a few memorable and believable characters in this novel. I find that his lack of focus toward any single character was detrimental to the novel as a whole. Ehrenburg jumped from scene to scene, despite not even having fleshed out certain scenes as well. As a result, the deaths that occurred in the final pages weren't affective. They were bathetic and overwritten, and the *mise en scene* was hurried. Despite his limits, however, Ehrenburg was capable in actually writing a decent story from Soviet propagandist literature. But it is undeniably Soviet propaganda. For example, one of the novel's central characters, Paul Tessa, was a diplomat who swayed with the tides so long as he could grab on to power. He alienated his family, but he eventually became head of France. It was nevertheless a futile aim, since the Germans came and overran their esteemed Maginot line through their blitzkrieg. Lucien Tessa, his son, died out of hunger after fighting for France because he was bored out of his wits. Most of the novel's other characters die out of fantastic circumstances. Jeanette, the lover of Desser, died because a bomb fell on her, while Desser died because he lost hope in France. I say fantastic, because while their deaths were believable in the context of the novel, they could have done a lot to obviate it. Their desire for oblivion was just as sudden and as magical as their jarring character shifts. It would have been believable had there been an epiphany, but there wasn't. Guess who lives in the end. Duh, COMMUNISTS. Only Denise Tessa and her love Michaud, after having discovered the beauty of communism, live to fight another day. Workingmen of all countries, unite. The Russians will show him something. We'll see the Red army, Denise. We're bound to see it. Hitler began it, Stalin will finish it. p 379. I wasn't even making that up. There were so many things Ehrenburg could have done better, but this is understandable because he was a Stalin apologist. At least the novel still has memorable characters. I'd recommend

watching *Army of Shadows* 1969, however, for an accurate and visceral take on France after its German occupation during the Second World War Philippe Gerbier couldn't be simply classified as a communist all he wanted was a free France, and he fought for it outside the law. Devoid of any schmaltz, it showed a resilient people in war-torn France. It was also less biased than this novel, and would be a much better use of one's time. It's not a horrible book, though but for 700 pages, it is what it is. Here is the trailer link for *Army of Shadows*. c Trounin
